

ANDREW TATE X CANDACE OWENS THE INTERVIEW

*We
develop a passion
for Teaching!*

[Music] thank you all right
let's just jump right into this
Andrew Tate long time I
know it's been a very long
time very long time actually I
met you downstairs at the Ritz
correct George and I were
engaged at the time and I
probably was very swept up
in George and barely got time
to talk to you but I do
remember you being very
polite so it's interesting to fast
forward to today and you
were very much in the UK
circuit now it seems like your
celebrity is kind of really

hitting the U.S market they're kind of finding you for the first time digging a bunch of old clips and there's a lot of pressure now on conservatives to say something really awful about you there seems to be a pressure on everybody on all sides to say something awful about me I kind of feel like uh I've been placed in a position where there's always someone attacking me new each day um but I guess that was built for it because it doesn't bother me like it should perhaps you seem to

be doing pretty well given the
circumstances I know the
truth of my heart and I know
that what I say is the truth and
I understand very well the
internet and how it works and
I also think I'm perspicacious
enough to understand there's
certainly a degree of
weaponized virtue and
perhaps a degree of jealousy
and perhaps a few other
things are involved in all of
these attacks I don't believe
that people who sit and attack
somebody for
their past especially
something so long ago are

genuinely virtuous I don't think it's about virtue I think it's about well I can get some clicks this way or I can get some views that way or he did the biggest interview ever or whatever it is there's certainly some other motivations and uh I don't want to say water off a duck's back I don't want to come across as arrogant however I do believe that since the dawn of human time every single King with any kind of empire was constantly at War and I think if you're going to become one of the most famous people on the

internet you're going to be at
War and you'd be a fool to
become massively influential
and then cry about the fact
that you end up in
constant battles it doesn't
matter if you're Napoleon or
Charlemagne or Genghis
Khan there's always someone
prodding the edges of your
Empire trying to find
weakness see what a little bit
of land they can take and I
think it's always been the
same and right now I guess
you could say I to a degree I
certainly have an Empire and
I'm massively influential and

there's a degree of uh I wouldn't say jealousy but there's certainly some ambitious people who are trying to damage it I think that's what it is so I did see a mashup clip that we're not going to show because I I thought it was unfair I will say that um only because there was no context provided to the clips it was just an extract of something that you said that 10 years ago some of them were literally 10 years ago um didn't know what year it was from didn't know who you

were talking to didn't know
what context it was and I've
been victimized online by
something like that before
where somebody takes
something abstract and says
well this is what must be what
she means until they're
provided the full context of
the clip and I also take
exception to I think digging
back 10 years um I don't
know who could survive that
litmus test I'm 34 years old
today 10 years ago today I
speak to my audience I talk
about they call me puritanical
I talk about you know not

drinking I think the biggest change has been becoming a mother and it would really be unfair if we went and found Candace at 24 years old liberal dancing at one Oak and said well look at these clips of Candace Owens fortunately I had no cameras in my face 10 years ago you somehow did um so I think it's a bit unfair I also think that some of the critique that is coming your way is coming from people who are well intentioned like they actually don't perceive maybe perhaps okay this is 10 years ago what

the context is has he changed
since so I will ask the
question and we are going to
get into some of those clips
who said you're an open book
how have you transformed
and I I've seen changes just I
think in the last five years
who are you
today how have you
transformed that's a very good
question it's also very
important when you talk
about Candace from 10 years
ago the idea that you did
something 10 years ago which
you would no longer agree
with is one thing but the

second thing to I to come
along to the conclusion that
you now have no value to add
to the world would be
massively unfair right
everybody changes and that's
fine I'm not the kind of person
who's going to sit and
apologize for his past I
believe all's well that ends
well I believe we're humans
and we grow and we learn I'd
be a fool and I'd be
disingenuous to sit here and
pretend I was sorry for
something I did in the past
and I'm not going to do that
I'm going to be

very honest to everyone at home I've talked at length for a very long time about my history and the fact I used to run a webcam business and I don't feel guilty for that I know that's maybe what they want from me I don't feel sorry for that I've never hurt anybody it has nothing to do with my current criminal case everybody who worked for me was very positive in fact my number one supporters currently online and my best lifelong friends and some of the letters I got in jail were from people who worked for

me at that time and I had a business and I'm not going to sit here and try and pretend that I feel guilty or I feel sorry for that I'm from a low income background I did what I

had to do to survive and truthfully all in all being very honest I don't think what I did was really that bad and I want to say that and I know people are going to lose their minds for it but I didn't tell drugs I didn't kill anybody I mean what did I do I I found a gap in the market and I helped some people organize some

accounts on an internet website that's what I did and they're going to try and criticize me and crucify me for the next 100 years because of it because of clips that were made 10 years ago I think it's disingenuous and I don't think anyone actually really cares about the virtue of it because nobody Who's involved in my life back then is complaining about anything I think it's just an attack on me and certainly we learn and we grow and we change but it's very interesting how hypocritical the idea of

looking at somebody's life
over such a long period
actually is I mean we can look
at Donald Trump right who
I'm a fan of I guess you're I
know you've had your ups and
downs with him but in the
conservative sphere he's
pretty well respected Donald
Trump used to own the Miss
Universe Pageant are we
gonna criticize him are we
going to crucify him what
about the girls he had in Miss
Universe who decided to go
on and do Playboy magazine
is he a bad person now why
that's not Christian values

right people are messy and
life is messy and nothing is
completely clean and
this idea that you're going to
find somebody and 10 or 11
years ago they did something
which might even be slightly
distasteful not even illegal
and you're going to crucify
him forever I just don't
believe that's genuine virtue I
think it's just an attack I do
think what's happening right
now is they are wrongly
conflating you having run a
webcam business however
long it was ago to the criminal
cases happening in Romania

and this is why introduction in
my voice when people were
saying he's not a conservative
he's not a Christian I don't
understand why Christians are
giving him a platform and I'm
very sorry to interrupt I'm
very sorry to interrupt you but
yeah I will say right now I
would never
consider myself a
conservative from that
standpoint right I'm a rat I'm a
rational actor I'm a reasonable
person I'm intelligent I use my
brain and I guess that makes
me aligned with many
conservative issues overall

because the other side have
lost their minds I don't wake
up and stand there as a
conservative figure I don't
consider myself a
conservative figure I've just
ended up aligning with them
on a lot of core issues because
I'm a forward-thinking
rational person but I'm
certainly not a concern I don't
stand up and say hey I'm a
conservative I don't I'm not
interested in whether the
conservative want to embrace
me from that perspective or
not I have no interest in that I
wasn't even

particularly political until my recent debacle where I realized a lot of things about the world and how avoiding politics will not save you unfortunately yeah that's and that's one of the things I pointed out was I said he's never said he was conservative why are we he's he is not identifying as a Christian so why are we suddenly using that as whether or not a Christian a conservative can put him on a platform and talk about something that is relevant and something that is relevant is

whether or not you are being
wrongly or unfairly
persecuted by a government I
have spoken on my platform
after examining the charges
against Harvey Weinstein he's
clearly not a conservative he's
about as far left

as it really gets but that
doesn't mean that I don't have
an interest in whether or not
he's guilty or not guilty and
whether or not he was
persecuted because of a
overtly political movement
like me too so I I I do not like
that these things are being
conflated but I want to park

by the side because we are going to get into your case and just stick with what you just said about the webcam business so you say you don't have any guilt for it um I'm not sorry I don't operate in that frame I don't think it's an intelligent way for a man to go through life to say I'm sorry at a younger age I did the best I could possibly do and I did the best I believed at the time and you grow from it and you learn and perhaps there's times in your life where you look back and think well maybe I would

have done this differently
because hindsight's always 20
20. but every rapper sold
drugs like you get to a certain
stage in your career where
you no longer sell drugs and
you don't do it anymore but
that's part of the life journey
and life's messy and I'm not
going to sit here and
apologize to any conservative
who wants to sit me down and
try and give me some moral
High Ground garbage I'm not
gonna I'm not going to listen
to it I had a very rough
upbringing a very tough life
and it could have been so

much worse in so many ways
I've done nothing illegal I've
never hurt anybody
everybody who was involved
in my life back then
are massive supporters of me
and I think it's very
hypocritical for someone to
sit look at a situation they
were not involved in and don't
understand look at old clips
taken out of context and then
tell me and a whole bunch of
people who were in my life
who were all perfectly happy
that something bad happened
or something wrong happened
I don't think that's genuine

and for that reason I'm not
going to sit and uh be
preached to by these people
who are imperfect themselves
everybody's imperfect and
another thing that's really
important we talk about
Christian values I also think
that I find it very interesting
and ironic that I'm somehow
the problem and these
Christians feel like they need
to

come and attack me now in in
the name of Christian values I
think Christianity has much
bigger problems than Andrew
Tate in some old clips I think

they have much bigger problems that are happening in their churches on a daily I think you can go to a Christian church and a lot of America be very disappointed in what you've seen I don't think I'm the problem with Christianity and yeah it's very interesting but there was a webcam company and I've talked about it at length on many different podcasts I had a business many girls on there were perfectly fully clothed and would paint pictures or sing and dance and laugh I've talked about this at length I've

had nothing to do with
it for 10 or 11 years and
nobody was ever hurt and I
am not sorry for it I don't see
why I should be okay so the
way that I read you and you
can definitely let me know if
I'm wrong obviously because
you are you is that people that
don't come from a lot me and
you obviously um obviously
have different decisions that
lay before us in life than
people that come from
everything or people that
come from a very stable
household Two Loving
parents um and this kind of

gets into dilemma I remember
years ago Tommy Lauren had
said something she's a
political commentator in the
US had said something to the
effect of well you know Jay-Z
used to sell crack and he sort
of laughs and he
probably did and he did and
he sort of laughed this off and
I remember looking at that
because I looked up to Jay-Z's
music so much you know and
I looked up to him because it
made it possible for me to
change my circumstances and
looking at this guy who
comes from nothing he came

from the projects he sold
drugs and then he doesn't
have to sell drugs anymore
and he's now talking about
ideas and talking about
business so I was able to more
closely understand and go
okay I could actually climb
out of these circumstances
even though I didn't wasn't
born you know with a ton of
wealth and a lot of
opportunities that some like
some people were and I think
it's very difficult for people
that don't
come from nothing to
understand that and they're so

sure that if they were in
Desperate circumstances that
they would still never do
anything but this is their
massive mistake and you're
right but this is their massive
mistake the reason I have
such huge Affinity with the
Youth of the world today
especially the masculine
youth is one because a lot of
them are disenfranchised
which is one conversation but
two also the reason my reach
is so Global the reason I have
so many fans in Slovenia and
South Side Chicago and I've
been I've had kids from Ulan

Batar come up to me
Mongolia all around the
world is because I speak to
the disenfranchised and part
of that is
always going to be or is going
to involve financially
disenfranchised I'm someone
who comes from absolutely
nothing and made himself
into something and
unfortunately there's a rocky
road sometimes like you just
described with Jay-Z to get
that done but if I would have
been born into a perfect
family like you said two
loving parents family was rich

white picket fence and I was saying all the same things then they wouldn't have the same Affinity so if you look at even a lot of superheroes you look at Batman he's a flawed person and I think the reason I'm seen as a hero and the reason I have the fan base I have is because to a degree I've always been a flawed person and I'm not a perfect human and I don't want to be and I think that that actually adds a lot of credibility to my character as a whole that I've become the kind of person who believes

he can add value to the world
and just like you said with
Jay-Z he changed and the
biggest thing for me
personally though truthfully
and I want the whole world to
understand this I've been
forensically analyzed by
multiple different federal
agencies from different
countries for the last 17
months analyzing every
aspect of my entire life across
the last 10 to 15 years and
what did they find an old
YouTube clip that's the worst
they could find no sexual
perversion no drugs no

genuine criminal acts they
found something
semi-immoral in a YouTube
clip and I would actually
challenge anybody who wants
to throw stones at me to go
through the same level of
scrutiny I have been under
and let's see what they find in
your life because I guarantee
anyone who's watching this
right now you sit there you
have a secret in your closet
you have a skeleton that you
don't want anyone to know
about and they would have
found it so what's the worst
thing that they found about

me considering I've been the most attacked man in the world for 17 months now an outdated YouTube clip and out of context YouTube is that the worst I think it's I think it's crazy that people aren't even sitting there and going okay this guy's been absolutely attacked and from every single angle and this is the worst they could possibly drag up right so I agree with you so I the question I would ask you though and because obviously you've moved away from that business you now the thing I

find to be the most interesting
about you is that younger
boys love you yes they
absolutely like the 12 13 year
old 14 year old I I have not
come across the top third
chair and boy who's not just
an Andrew Tate Stan yeah
and I think that's it's
remarkable gives you a lot of
power and I think this is
perhaps the interest that a lot
of people have in you is what
are you going to do with this
power right you have all these
boys they believe in
you they stand up for you and
that is why it becomes

important to state I'm not
sorry that I lived this I don't
think I would say that I'm
sorry for anything that I
decisions that I made when I
was young either because that
this is the deck of hands that I
was given what do you want
me to do but at the same time
I do try to now knowing that I
have such a following of a lot
of young ladies that follow
me say like listen I did the
idiot stuff so you don't have
power power and
responsibility go hand in hand
and that's the thing that's so
interesting these out of date

clips and they want to talk about these things from 10 years ago at the time when I was talking to camera those videos are made for private circulation initially secondly I wasn't trying to educate the world anything back then I didn't have to kind of power and influence I have back then the way you say something to a video which has 50 viewers has to be different than the way you say something to a video that's 50 million viewers power and responsibility absolutely go together and I understand that

very well and I understand the
power I have and I do believe
I'm now an absolute Force for
good in the world and I'm far
more careful with how I'll
project myself with certain
ideas absolutely agree
completely but that's the thing
that's even so crazy about all
of it these old videos
Everyone's so concerned
about wouldn't even
circulate if my haters weren't
constantly trying to use them
against me they'd be
disappeared into the history of
the internet I don't know
where these things come from

I don't know where they were found I don't know where they are it's kind of crazy a lot of people are making all these constant attacks on me and I don't watch a lot about to be honest with you Candice I don't watch all of it but a lot of the videos are so outdated the only reason they even exist now is because my haters are so desperate trying to take me down they don't have any concern for them being seen because they wouldn't be circulating them otherwise so yeah absolutely power and responsibility go

hand

in hand and I do believe that I now have a huge platform and with young boys they're exceptionally interested in my case I do believe to a degree I'm an anti-hero I do believe to a degree that the harder I'm attacked the more credibility is given to me in the eyes of my fans I think that they see ah everyone's out to get this guy everyone was out to get Batman this kind of feels that way and I do try and Lead everyone down a good path and say extremely positive things and I don't think

anybody is finding any clips from the last five to six years which have anything negative in them right I think you've changed that's why I say over the last five years I think there's been there's been a seismic shift and speaking to boys the younger Boyd I think one of the things that they're really suffering from I get tons of responses rather unexpectedly whenever I talk about the topic of pornography on my show and it's one of those things that again if you found Candace 10 years ago and you asked

me about pornography and by the way this was actually implanted into my head from a health school like from health education where they would say pornography is healthy people should watch pornography people who should engage in pornography it's okay if you're in a relationship for you to watch pornography and then I had a huge wake-up call when I spoke to Tim Ballard you know he runs operation underground and then I realized how closely pornography is related to

human sex trafficking real sex
trafficking not noticing
trafficking and yeah we
should talk about that because
they are kind of stretching the
definition of sex trafficking in
your case I've taken a look at
it and what's remarkable to
me is the amount of young
men and I would say from the
ages of 18 to 35 that write in
and say how much they're
struggling with porn how
much they're struggling with
pornography addiction um
how they feel that no person
is talking about the ills of
pornography and so I just

watched this clip of you this morning sitting next to Adam 22. you were ever interested in doing your first ever double penetration scene that me and Lena I mean I I don't want to speak for you but I feel like Yo dude would he be a suitable candidate can I tap him in I don't know no [Music] can I can I fill in real quick Andrew you know you're out Aiden we care for you you're not in you're not in this conversation anymore fair enough go ahead Andrew would you would you would you Andrew would you

double penetrator bro would
you answer questions together
is that chill there's absolutely
zero percent chance of that
happening and it's not because
Elena is particularly
unattractive it's because she's
married to Adam and I have
no interest in degenerate
pointless sex and I have no
interest in making a spectacle
of myself or
even just involving myself in
anything which I deem to be
overall Haram and pointless
that's just not something I'd be
interested in there's not there's
not a single amount of money

on the planet you could pay
me to to undertake so you're
very polite I'm not going to be
so polite I thought he was an
absolute degenerate um and
and I mean that the idea of
having a woman making the
vows that you make in
marriage and literally offering
her body as he did to you was
a former generous State and
you were being very nice and
measured and I think that for
that moment that was the best
thing that you possibly could
have done because she looked
quite vulnerable uh Lena I
think is her

name but how do you
reconcile that now right
you're in a circumstance like
this you're being polite you
did say I'm uncomfortable
you did say that I would never
do this I think if that was
really important for you to say
but you're not the same person
I mean how did you yeah
even reflecting on it yes it's so
disgusting he offered you his
wife it is pretty disgusting it's
also pretty misogynistic
because he didn't ask her he
offered her I felt sorry for her
so I was very measured with
my conversation with them

because I felt sorry for her I
could tell she was nervous she
was swinging on the chair
back and forth she didn't want
to be there she felt extremely
nervous and I

think that only a coward
would berate a very nervous
very scared woman even if
she did something which I
personally disagree with even
if I think Adam is personally
he doesn't align with my
morals because she was so
nervous and because she was
so almost afraid she looked
and I think she expected me
to go go at her hard so I just

felt sorry doing it I I just
didn't I couldn't find maybe
I'm getting soft in my old age
but I thought I think she
knows what I think and I
think she knows what the
world thinks and I think if I
go at her too hard it's just
gonna break her and I don't
really like the idea of her you
know turning off the camera
and bawling her eyes out I
think that God will teach her
the

lessons she needs to learn
from her experience both
positive and negative and I
think that's God's job to do

and not necessarily mine but
yeah it was certainly
uncomfortable and it shows
how degenerate the world is
becoming and pornography as
a whole is simply just I think
a I think it's an effect I think
it's a tool which is used to
ensure that the male population
stays as docile as possible I
don't think that any of the
things that are happening to
the male population are
accidental I think that keeping
us as docile as possible is
very interesting for the people
who are in charge of the
world because we're the

warrior class at the end of the day it's going to boil down to the men who are going to stand up and actually do something about anything at some point at some point in time so I think they like the idea of us being docile and I mean how much more docile can you get than a man staring sitting there looking at a screen not even want to reproduce for real because he's just staring at a screen and I think that's just the next stage in the slave mind and it's everywhere now whereas and this is something that my

husband says he doesn't have
any social media he's like
Instagram is pornography I
open my Instagram and I've
got Emily rajkowski's butt
cheeks and I'm not a man so I
don't have that same
biological reaction to seeing it
but I can only imagine how
difficult it is for a man when
you

open an app and you've got
Kim Kardashian offering her
body too Emily rajkowski
even if you're walking down
the street I've realized even
how desensitized I've become
to pornography because you

see an ad for Gucci and for
whatever reason she's got to
be completely naked while
she's holding the bag I
remember in my lifetime I
remember in my lifetime
there were music videos that
got censored or banned or
only be played after 10 or 11
at night and if you watch
them now you'd be like what
for what what is that a bikini
like it's nothing it's amazing
how quickly it has
degenerated and yeah
absolutely and we're all
degenerating with it like I've
realized the fact that I don't

have a
reaction to seeing the half-
naked woman holding a
Gucci bag means that I have
been desensitized to
pornography and I can only
imagine what that does to
men oh completely and it's it's
but this is what the powers
that be want they want to
make sure that the male
populace is as docile as
possible and they do that with
a large array of weapons and
they do that with a web of
tools and I believe that I'm the
counter to that which is the
reason I ended up attacked in

the first place but
unfortunately when you buy
into the slave man mind
programming you not become
the kind of man who can
easily attract a woman
because you're not attractive
to females as a whole so how
do you satisfy yourself you
end up sitting there staring at
a screen and they convince
you that's a good life to live as
a man and that's perfectly fine
and perfectly normal and you
don't even get to genetically
reproduce I do also though
and I want to make this clear I
do believe an absolutely not

our self-accountability as a
man I think is a man
everything that happens to
you is your fault me going to
jail was my fault me being
attacked online was my fault
if all these bad things that
happened to me I will take
responsibility for even if I
believe they were unfair or
unjust and I think that any
man who's going to sit there
and say I'm struggling I'm
struggling he also needs to
wake up and understand that
if you're going to truly
struggle
to not click on a website then

you're going to deserve the
terrible life you're going to
live and the devil or the
Matrix or wherever you want
to call them are going to fill
your life with Temptations
they're going to fill your life
with Easy Way outs that
they're going to want you to
take because the good road is
usually the hardest Road
they're going to continue to
fall for them then you're going
to have to suffer the
consequences of that so it's
it's it's double-edged it's
certainly difficult that
pornography is everywhere

and men are struggling with it
but to me what's even more
upsetting is that these men
don't have enough fortitude
and enough mental strength to
wake up and say I'm better
than

that but but this is this is the
thing right so I'm about to get
started 10 days this is the
thing but it's the thing right so
when you attack a man's
mental fortitude on one issue
you attack on all issues this is
why it's done purposefully to
resist a slave mind you need
to be able to resist in the first
place how can you resist a

slave mind if you have no
physicality you have no
willpower no ability to
mentally resist anything well
then what you're gonna end
up doing you'll end up eating
the bugs and watching the
porn and sitting in front of
your computer and that's what
they want from from the
people so I think that it's
actually all very
interconnected people come at
me with the porn problem and
I get the
same thing guys say to me all
the time hey what are you
gonna do what should I do I

struggle with pornography
and I say that's because you
have nothing else in your life
in order if you were in good
physical condition and you
had the money you were
supposed to have and you had
the mentality you were
supposed to have you
wouldn't need it so the reason
you're so addicted to porn is
because everything else in
your life is a failure and yeah
it's certainly a complicated
issue it's a difficult one and
this is why they fear male
agencies so much because
when men truly wake up and

decide to be the best versions
of themselves they're hard to
control because all these
control mechanisms fall by
the wayside they don't want
the porn anymore they don't
want the antidepressants
anymore they don't want the
garbage anymore and now
you have a whole bunch of
men who actually want truth
and honor and respect and
they want to live for
something and then what are
they going to live for they're
going to want to be brave
they're going to want to do the
right thing regardless of how

dangerous it may be for their
own personal circumstance
and that sounds like a difficult
population to enslave I mean
that's that's what's scary how
do you reconcile first off how
long ago was your webcam
business yeah so I stopped I
stopped having any
involvement with it I think
eight to nine years ago I
stopped it
was a long time ago it was at
the early stages of the internet
and I'll explain it one more
time for people I've explained
it already at lines but I'll
explain it from the beginning

I had a company I was fighting at the time and on a side note I actually want to make this clear we talk about things people have done in the past for money I beat I beat people up for money I hurt people for money I don't often tell people this and I think this first interview I've mentioned in there's a person who can never walk the same again because he fought me I've had 87 professional fights and I did my best to kill people you're going to sit here and talk about what I did for money I literally hurt people

for money and so I'm a
perfect
person I'm not sorry for my
kickboxing career or my cage
fights I'm sorry for anybody I
had bare knuckle fights I'm
sorry for any of them right I
was a person who had to pay
the bills I lived the Life I
Lived I used the tools I had
and I ended up opening a
webcam company where girls
would sit on a laptop and they
would talk to guys on the
internet for money that's what
they would do the girls would
sit there fully clothed or a
bikini some of them would

paint pictures some of them
would sing songs it's very
similar to Twitches now
twitch is almost more sexual
than the sexual websites were
back then I helped the girls
set up accounts we worked
together I helped them
become as popular as
possible and everybody made
money and everybody was
happy and nobody is
complaining about it nobody's
upset about it none of the girls
have worked for me are upset
about it the government aren't
after me for it it's perfectly
legal nothing's wrong with it

there's just a whole bunch of people who now think that they can take the moral High Ground against me because I previously ran this company and I think I can anticipate the question you're going to ask how do I reconcile with the fact that I used to produce pornography or degree pornographic content writing to you like how do I and now men are trying to escape it yeah that's a really good question there's a few different ways I can answer that question I think the first way

I'll answer it is if you own a liquor store and an alcoholic comes in and you refuse to sell him alcohol does he stop being an alcoholic no he just goes and buys from someone else so that's the co that's the cop-out answer the cop-out is well they were all these people who were addicted are always going to be addicted regardless of whether I did it or not so that's the cop-out answer but the second answer I can give which I think is more detailed and probably more nuanced is one I intimately understand the

relationship between men and these websites I've had and seen men give away their life savings to girls they've never met I've watched and I've seen it and I actually think a lot of the insights I give a lot of the things I tell the world about the male men Mental Health crisis about men being so constantly lonely about how important it is to build yourself into a high value man about how money alone is not enough I explain all these things a lot of these are lessons from the webcam days I saw dudes who had a

whole bunch of money no other attributes and ended up on these websites spending hundreds of thousands of dollars because they didn't have anything else so I think I learned a lot of important life lessons and I do my best to try and pass them on to people but I guess also and this is the final answer I want to give about this whole subject is that I do think I can take the question you're asking and reverse engineer it and use it against the people who are trying to attack me for it my my answer to it

would be how do you sit and want to criticize me for being involved in the production of pornography 10 or 11 years ago if you're involved in the consumption of it because you're creating a market for it so anybody who wants to sit and say that I did things wrong that's fine you're allowed to throw stones but if you're in a glass house if you have ever signed up to an only fans account if you have Instagram if you're following these models on Instagram who you don't know who are showing their tits and ass

all day if you've watched porn
if you fancy so or stick some
beautiful woman on a movie
if you're going to live in lust
yourself and you're funding
this entire industry you're
Downstream you're at the
bottom of it how can you then
take the moral High Ground
on the person who's
producing it that doesn't make
sense to me so if you've
totally abstained from
pornography your entire life
and you've never looked at it
ever and you've never been
involved with it ever and
you're a perfect person and

you want to come along and
say what I did was wrong
that's fine but I don't think
most people are complaining
can even say that I don't think
they can and I now will once
again State this and I'll State
this as a matter of almost fact
the level of Investigation I
have gone under the level of
forensic investigation my life
has been submitted to most
people don't understand most
people have never been
through what I've been
through they've not had their
entire life forensically
analyzed every word they've

ever said everyone they've
ever spoken do every
WhatsApp chat everything
head to toe by federal
agencies for the last 10 years
and the most they come up
with is that I ran a webcam
company which I've already
admitted to that's it take these
people who criticize me and
see how many porn websites
they've been on get their
laptops see they've Googled
see who they've
spoken to look it's it's all
massively hypocritical I do
understand that some people
would hear that and go oh you

know he's a bad person Etc I
don't think I was a bad person
I never hurt anybody I think I
could have done much worse
things I know many people
from my circumstances who
did many things worse than
what I did and all in all I'm
not going to sit and pretend
I'm sorry for something I'm
not sorry for and I I just want
to make it clear to the world
that like you said people come
from different backgrounds
and and people grow and
people change Etc but I also
look at the world in a
different way I think that

we're all constantly doing our
best I think I'm doing the best
I can right now

when I'm 55 I might watch
this interview and think I'm an
idiot right and I think we're all
constantly doing our best and
I did the best I could do at the
time and I don't think it makes
sense for me to hate past me
for doing his best I just don't
think that's a very
constructive mindset living a
healthy lifestyle can be
challenging when you're
always on the go you need
simple manageable routines to
make sure that you're getting

the proper nutrition every single day which is why I'm a huge fan of balance of nature balance of nature fruits and veggies capsules are a great way to make sure that you're getting essential nutritional ingredients every single day through balance of Nature's

code Candace yeah I think it's
really important for
conservatives who identify
and say I'm a conservative to
recognize that the people it's
not people that are perfect that
are bringing people over to

our side I was not brought
over to conservative
principles by people
preaching at me and telling
me how perfect their lives
were it was actually people
that were much
more broken that led me here
it's which is fascinating I got
interested in business because
of Jay-Z yeah I criticized him
all the time now about things
that he does but you're not I'm
not interested you know and
Kanye West you know him
doing a Christian album and
things of that nature it you
need people that are flawed

you need people that are real
this is the thing I'm not
particularly political I didn't
consider myself particularly
political but it looks like I'm
kind of ending up there and
like I said I'm a realist which
puts me on the conservative
side and I'm not stupid and I
understand very well about
the world and propaganda and
what they're trying to do to us
so you end up being
conservative
by default but you're a real
person if you have flaws if
you want to sit and tell a dis a
disadvantaged youth growing

up in the south side of
Chicago what how he's
supposed to live his life from
your perfectly manicured
garden and your white picket
fence you're not going to get
through to that person they
don't care what you have to
say actually becomes a bit of
a turn off absolutely and those
were things on me that I don't
think will ever change which
is why I get your following I
get what people like about
you it's why you say the
disenfranchised follow you
and I think it's important for
people to understand that like

there was no way like and I
still have no respect for her at
all but it's why I snapped
so hard at like the Meghan
McCain's I'm like who the
hell are you what have you
done in your life that you
think I'm going to take advice
what you've just been
someone's daughter right what
have you worked for
absolutely what have you
survived tell me something
that you lived through in your
life that was a struggle you
can't yeah because your life
has been perfect and so I
think it's it's so foolish to

think that I'm gonna take a
lesson in me that I'm more
likely to take a lesson from a
Megan McCain why I don't
even think is a conservative I
think she's just a rich girl and
got rich in way worse ways
and you got rich what was
Daddy doing overseas yeah
um that's a really amazing
point

because we can also look at
that right conservatives will
sit here and attack me we can
that there are people who are
making millions from
blowing children to pieces
like let's let's get the world in

perspective here first oh but
it's cleaners they didn't get
their hands they didn't get
their hands dirty of course
yeah I totally agree with you
and and that's why I am never
the first to bark uh when
someone is suddenly
assessing someone's entire life
I'm like look at your entire
you are literally built on the
backs of dead Iranian children
absolutely and and I'm
standing up here also and I
want to make this very clear
like I've not tried to avoid this
judicial process I've not tried
to run away from anything

I'm standing here saying if I've committed a crime put me in jail and if I haven't committed a crime the what can you say I've done I'm perhaps could you could argue it was slightly immoral perhaps but I also to degree maybe I'm a Libertarian I think of 20 people or 30 people get in a room and they all agree to do something and it makes them happy then they should be allowed to do it if nobody's hurt nobody's upset by it then they should do it and perhaps that does make your Liberty libertarian

if 30 full-grown men decide
to go into a room and be gay
and they want to be gay then
they should be allowed to go
be gay or Thirty men you're
not hurting anybody is what
you want

to do do you want to wear red
t-shirts wear red T-shirts if me
and my brother had 30 people
we all got together they
wanted my money and
everyone was happy who's
others to come along criticize
and say people are victims
people are upset this is wrong
this is bad Etc so yeah you're
completely right it's amazing

how people throw stones and
how imperfect everybody is
truly and I think the best thing
you can do as a man is
obviously learn your lessons
from your life and try your
best to pass them on I feel like
I'm doing that to the best of
my ability but also another
thing that conservatives is
going to blow their minds is
going to really upset them
what they don't understand
about

especially the strength of my
message is that too especially
the young boys of the world
I'm cool I'm cool and and I

know they think that doesn't matter but if you want to sit behind a desk and go da da da the Republican bill 304.

nobody you're a dork so no one gives right you're a nerd I go to big cars and pretty women and I live the lifestyle if you want to really capture the Youth of today you need to get some kind of affinity with them they need to at least want to be you to a degree you need to at least be their hero to a degree this is where liberalism wins I don't think a lot of conservatives understand that liberalism's

sexy you do drugs you run
around you burn stuff it's cool
you get a par a because what a
conservatives do stay home
stay home stay it's boring
right at least what they don't
understand is that
conservatives will sit there
and go he's a terrible role
model because he has all
these pretty girls in this fast
car and he's a materialistic
that's the only that's the
reason I can actually help the
world that's the reason young
boys will listen to me you
said it yourself 14 15 year old
boys they'll look at my life

and go okay I want to listen to
this guy they don't want to
listen to me if I sit behind a
desk and read Republican bill
308. I don't read that crap I
don't know and they don't
care I agree with you I mean I
think one of the criticisms that
I faced was that I care too
much

about culture on my podcast
my culture is interesting
culture is what is changing
minds and changing Hearts
because we don't want to
compete with liberals in the
cultural space and what are
we doing this for a hundreds

what do you think the young
kids do you really think that
they're like you said following
a Senate bill but just hit the
desk or do you think that how
you convey that to them and
how you're talking about
ideas actually matters and
culture matters and it's
something that conservatives
gave up um many years ago
and they wonder why they
lose and then we call it
Compass cultural Trump was
cultural Trump was fake news
yeah he was Trump was a
hero and to be
a hero you have to be attacked

and you have to be an
imperfect person and and
that's the reality of the world
and culture is super important
and you're right in regards to
conservatives giving up I I'm
trying to think of conservative
culture now I mean I like to
think that we're making
degeneracy unpopular I like
to think that there are some
good voices out there that is
making God cool again I
actually like to believe the
pendulum is swinging I do
believe it and I see it online
and it's a combination of so
many small things coming

together almost in perfect timing but it is cultural you need a cultural shift that moves away from this insanity and you're right if you just want to sit there and just preach nobody's going to be interested in it and I also think that especially in the masculine realm I can't talk for being a woman but I can talk for being a man in the masculine realm we certainly like to see people lead by absolute in our example because traditionally we would be following our commander or the man we

respected into war so we'd like to know he can at least fight you'd like to see he's at least Brave you like to see him lead by example and I think especially if conservatives want to win the culture War then they need to lead by example if you're going to if you're going to be a conservative preacher and you want to tell men about how they should live their lives you should be as strong as possible you should look in shape you should be big you should show You're motivated you're disciplined you should

you should absolutely of
course you we all have vices
but you should be very
disciplined with your outlook
and you make it very clear to
the outside world that what
you've done wrong what you
haven't done wrong you
should take accountability I
think you need to lead by
example I don't think you can
preach to men I don't think
you can preach to young boys
I think that's the reason why
they don't do so well in school
in general I don't think that's
the reason why they're
disenfranchised I think you

need to just lead by example
and let them
follow and I feel like I'm kind
of doing that by just live by
just standing up and saying
No this is who I am and I'm
Unapologetic for it and this is
what I've done and this is
what I intend on doing and I
try and I'm going to try and
save the world so I want to
shift gears here and talk about
your dad because I'm quite
fascinated by your dad he
passed recently yeah how
many years ago uh nine I
think nine years nine years
ago but wow just wasn't all I

was expecting a chess champ
serve the country um his
name was Emery really
interesting to talk about just I
guess your upbringing with
him as this chess champ how
did he get into chess yeah my
I do believe I had the best
father on the planet a lot of
the things I regurgitate are
regurgitated from him a lot of
the things I say he literally
said to me line for line I
believe that he was very
morbid in his approach to life
and he wanted me to
understand that he will not be
here forever and he wanted

me to understand that when he was gone I had a duty to fulfill he talked about dying a lot which I guess is kind of unusual but he would even though he was relatively young he died when he was 58. but he was a chess yeah he was a chess professional he was a professional chess player he was one of the best chess players in the world and he what's most interesting about him is he almost predicted the future absolutely and utterly perfectly he was talking about the Ukraine Russia War

back in 2013 and he was talking about how the gay children gay people can't have children so they're going to come for your children trust me that's what they're going to do the children are next like he would say all these things back like 10 or 11 years ago and I'd be like all right Dad you're a bit crazy calm down but uh I guess when you're a chess player you see the future and he raised me with absolute accountability and he certainly raised me and Tristan to be he understood

what the world expects of men and he raised us to be strong and even when we were in jail my mother would call I'd speak to her on the phone and she'd say how are you doing and I'd say oh don't worry she would say yeah Dad raised you for this like we were always raised to be Warriors so I don't think I could have possibly ever had a better father I I'm gonna miss him forever and I think the best thing I can do is be the best version of myself to give honor and respect to him and I think that's the best

where did he pick up chess it's quite unusual he's American he was American black American I don't know too many black American chess players full stop um where did he pick up chess he taught himself and he taught himself and he just read a couple books I think he read three chess books and ended up being one of the best players in the world and incredible it's incredible but it's actually interesting when you talk about we were just discussing an affinity and how people are imperfect

people and how it allows you to actually teach things better my father towards the end of his chess career especially made most of his money teaching chess in inner city schools because he's a big black guy so the children would be like ah okay I'll listen to this man you're right so it's amazing how Affinity is real and coming from a certain socioeconomic background is real and you know we all talk about how ridiculous racism is but also to a degree pattern recognition is real I look like

him I can be like him these things are real so yeah he he did fantastically well in terms of

teaching especially disadvantaged children and uh he taught himself and I wish I had his mind I'm not nearly as intelligent as he was I wish I was real smart to be a good chess player you've got to be better than smart I actually think you go beyond the realm of smart into a I wouldn't say he was on the Spectrum but you certainly get to a new level of social interactions do you

understand I'd go to chess
tournaments when I was a kid
and everybody there would be
a World level chess player
and everyone was a bit
strange a little bit um I don't
know if it's like that anymore
I see the chess communities
now moved online there's a
lot of them playing online
they seem a lot more normal
than the

Grandmasters I remembered I
remember an old
Grandmasters half drunk xkgb
shaking at the board yeah like
it was a bit different back then
but um yeah I wish I had his

level of intellect he was
certainly the smartest person
I've ever known and even
when he died I got endless
emails from people I'd never
heard of who just said I
worked with your dad and I
don't think you understand
how smart he was he served
America yeah served America
he was in the Air Force and
he was a linguist for the CIA
he joined the Air Force he
ended up being a linguist for
the intelligence what other
languages did he speak he
spoke Russian German
Spanish and English but

officially he was supposed to
speak

Russian he learned he
assimilated Russian in two
weeks I think he holds the Air
Force record okay so he's very
smart yeah super ridiculously
smart yeah I got an email
from somebody when he died
and they said that that I just
want to send you an email
you don't know who I am I
was serving with your father
in the armed forces I don't
you tell everybody your dad
was smart and they're not
going to understand how
smart he was and I want to

give you a quick story I was living with a Russian woman and I already spoke Russian conversationally when I began the Air Force training to learn Russian your father knew nothing didn't know the alphabet didn't know nothing and within two and a half weeks he was correcting everybody including the professor on Russian yeah so like he just read the dictionary I saw my dad sit there and read a dictionary just read it and that was it it's like photographic memory like I'm a spectrum

or something else going on
yeah something with a little
X-Men Emery Tate was his
name and everyone called
him E.T he was tough on you
he was certainly tough on me
and I I can't I can't express
enough how grateful I am for
that I we live in a world now
where I'm going to say that
my dad hit me when I made a
mistake and everyone's going
to lose their minds and they're
going to pretend I was
somehow abused and that
somehow my childhood
was terrible and I could not
thank if he was come down to

Earth today I would shake his hand and say thank you for absolutely everything you gave me including discipline including understand that understanding that in the harsh realities of the real world there is a line and if you cross that line violence appears that's the unfortunate reality of Earth there's a line and if you cross it violence will appear either from a cop or from a guy on the street or from someone you don't like or even a friend will turn on you whatever there's a line that shouldn't be crossed and I

learned that from a very
young age and I'm very
thankful for that I'm not
sitting there saying a kid
should be abused

there's a difference between
abuse and discipline of course
everyone with a brain
understands that but he was
extremely tough on me and if
I could change anything about
my childhood I'd only wish it
was tougher because life's
tough life's hard and I think
that the best thing you can
possibly do as a man is
prepare for the endless
difficulty that's going to come

your way there's no there's no
way out as a man you're either
going to have a very difficult
life to become somebody
important or you're going to
suffer the difficulty difficulty
of being invisible what do you
want to do you want to be
invisible and just hide and
work in Starbucks and never
have a girlfriend who truly
loves you and
nobody care if you live or die
or do you want to go out there
and be top G and be the most
famous man in the world and
have government agencies
trying to lock you up for no

reason putting you in a
dungeon you have to make a
choice it's going to be difficult
either way so I think if you
have a son and you're not
preparing him for absolute
difficulty you're doing him a
disservice I think that's what
has to happen as a man and
it's I've said this many times
before but I'm going to say it
again I don't think many
people understand exactly
how competitive the
masculine world is men are
constantly in competition with
each other we always have
been we used to go to war and

fight and kill each other I
guess in some places we still
do maybe that's calmed down
a little bit but in the masculine
world of today everybody is
constantly competing for
everything the car that you
want other people want the
woman you want other people
want the house you want
other people want you're
competing to have all of it
and how do you do that you
do that through status and
money and influence and
power it's War I don't think
many women realize that
when two men even meet

each other for the first time
it's like an unspoken maybe
tiny bit at the back of the
mind there's a tiny analysis of
could I fight this man yes
that's real real you go up and
say hello hello um within a
one punch issue that's it oh
he's one

punch he's one punch he's
three or four that's the reality
of the masculine world
because we've evolved if you
believe in evolution but I my
My Views are mixed but
we've evolved to be in this
position where we're
constantly analyzing possible

threats and we're constantly
analyzing people who perhaps
are on our team or snakes Etc
and I think that not many
people understand exactly
how brutally competitive the
masculine world is and I think
the worst thing you can do for
a son is just to raise him in a
bubble I my dad I'll say here
people are losing Minds my
dad used to just randomly
push me over I'd be like free
just not hard but just [__] up
boy okay Mom would be like
why are you doing
that son he's like you get
pushed over that's life my

Mom hated that she did that to me but uh yeah I can give him nothing but praise I I'm really so thankful I had the the upbringing I had do you think he's proud of you I'm certain he's proud of me and it's amazing how much strength I can get from that it's amazing how much strength you can get from knowing that your ancestors looking down on you and you're doing your absolute best I also believe that God can be proud of you when you do your absolute best and I don't think many people

genuinely do their best in the world anymore when I say do your best people sit and go oh yeah okay no when's the last time you actually did your best like I don't train to run marathons but I know if I gave my best I could run a marathon right now first try if I gave my best life depending on it when's the last time people have genuinely given their best to anything there are people going through the world and going through life today that don't give their best or 100 effort to anything ever ever they can't remember the

last time they tried so when
I'm sitting in a dungeon I'm
sitting in a Romanian jail cell
I understand that it is a chance
that God has given me and
my ancestors are watching for
me to do my absolute best and
to show to them that I am the
man I say I am you can't
become the most famous man
in the world for mental
resilience and God not test
your
mental resilience I think that
would be a very amateur way
to view the world that you can
now become one of the most
famous men in the world who

talks about mental discipline
and mental resilience and
God's not going to test it I
think God's going to come
along and say okay you want
to be Mr famous all right let's
see what you have so I
believed it was a a chance to
show God and show my
ancestors and show my father
that I am the man I say I am
and it's amazing about
strength you can draw from
that because I don't think
many men especially
understand that even if you
don't have the strength to be a
hero for yourself you should

have enough discipline and
enough honor to
want to be a hero for
somebody else and if you
have other people you truly
respect you should want to be
a hero for them and I think
that's the masculine
imperative if someone's going
to attack your wife that's
when you become a hero for
her you have to what kind of
man are you if you're not and
you can apply that to other
things if you apply that to
your ancestors you apply that
to God or you apply that to
your beliefs or your core

principles as a man then you
can be a hero anytime you
want so it's so funny that you
say that because it really does
it goes everything goes back
to biology I think about this
all the time no matter how
much sociology is behind
everything telling men to act
like women and
women to act like men at the
end of the day women want a
masculine man and when they
don't have a masculine man
and they've beat their men
into submission they're not
attracting them anymore
there's a tale in between it's

just not attractive anymore
and I made me think of this
boyfriend that I had when you
were talking about you know
just defending the realm the
sort of responsibility that men
have and I remember sitting
there realizing that I had to
break up with him because I
thought that if somebody
burst through the door with a
gun I was gonna have to be
the one that would have to
defend us because he was just
such a flower 100 and it's in
society is yet blaring at men
to do the opposite and well
they're trying to confuse us

this is why I think think you
have a platform this is my
whole theory that I built in
my head about why you have
a platform is because Lena
Dunham Lena Dunham came
before you right and I think
that for years men were told
to act like sissies men were
told to put your tail between
your legs that was the
message the agreed upon
message that came with you
know Hillary Clinton running
the me too all of these things
remember basically told that
if you have a masculine
Instinct you're guilty and then

inevitably because there is an
equilibrium in this world
because there was landed
onions because there was a
Taylor Swift because there
was the
girl squads eventually what
would have to happen was
that it was going to have to be
evened out by someone
saying no F that be a man
yeah and I don't feel guilty for
being a man and I don't think
any man should no and I think
so either and I don't think and
I think that the most annoying
thing about all of this is just
how genuinely hypocritical it

is because it's all this feminine
movement and we don't need
men and men don't matter Etc
that's only too many the
whole it's a it's a agreed upon
message that men suck
absolutely and it's only in the
most favorable possible
circumstances where females
will say that and that's what's
so disingenuous about it
because as soon as things
actually begin to get
hard the closer we get to the
realities of Life the closer we
get to the unfortunate
circumstances of the world
and they exist in many places

the faster you'll see people
look for traditional
masculinity to protect them so
it's not even like it's a genuine
belief that's what's so
upsetting about it is that it's
just I don't know if these
people are delusional or if
they're deliberately
hypocritical I'm not sure
which one it is I think they're
brainwashed I think it's it's a
two-prong approach I think
it's it's the cultural messaging
and also in the education
system they're actively
learning that this feminism is
what you need to Aspire

towards like when you get out of school women you should want to compete with men in climbing the corporate ladder I actually think there there's a mass brainwash that's taking place completely they want a newer men and the way to do that is to empower women to a point where they're now the dominant power especially in the Western World I believe we live in a matriarchy I don't believe it's a patriarchy like we're told it is I actually believe it's the other way around I can't think of a single

law that benefits men over women but I can certainly think of some that benefit women over men I think it's very dangerous to be a man in the world today I think that if women want to destroy a man it's extremely easy to do we can look at my current scenario and situation I'm in and many other men are in the same scenario I can't think of many examples of a man falsely accusing a woman of something and her losing her entire life where I can certainly think of one's the

other way around so yeah
they want to turn men into
eunuchs because their
intention is to make us all
slaves and I say that and
people I it rolls off my tongue
and people just hear it they
don't actually think about
what I'm saying their
intention is to turn men into
eunuchs because they want to
make us all slaves I want you
to actually understand exactly
what I'm saying to you
because at the bottom line of
revolution has always been
young military age males and
they don't want them to

have enough balls or enough
Forward Thinking or even
enough care for anything
outside of themselves to do
something about it another
thing people don't understand
is that a lot of these attacks
and a lot of things they're
trying to do with the culture
especially they're trying to
inject such innate selfishness
inside of people that they
don't really care about
anything that happens outside
of themselves because then
it's very difficult to give about
your community it's very
difficult to have any kind of

genuine care about your town
or your country or an issue no
they just want you to be self-
absorbed semi-depressed
because depressed people
don't fight that hard watching
porn living
inside of your own mind
convinced that somehow
you're oppressed for some
reason on the internet typing
tweets that's what they want
you to do and they're going to
try and keep you there and
genuine masculinity yeah to a
degree it's protective and to a
degree also it has parameters
you you can't be a man who

doesn't say no you can't be a man who doesn't have standards for himself and for people around him I'm got labeled as ultra-misogynistic because I believe that a man should have standards in his relationship I believe a man should avoid dishonest people male and female you should avoid if you're a dishonest person if you lie if you're going to deceive me it doesn't matter if you're a man or a woman I don't have anything to do with you I was sitting and talking on a panel show saying that women who are

dishonest and promiscuous
are not the kind of woman I'd
ever want to associate with
and I was labeled
misogynistic for that so it's it's
crazy how they'll attack you
and they'll attack you so
violently and so endlessly and
repeat it so many times in a in
a bid to beat your soul down
that's what they want
especially from me I truly
believe I'm the number one
prize for them to get if they
can get me to just give up if
we can get Andrew Tate to
just give up being a man's
Bad come on Andrew say it

and it's like it's it's it's it's
dangerous one thing
but it's actually genuinely also
sad when I analyze the
situation in the world we're in
today I partly feel sad that
we've ended up in this place
where the people who are in
charge are so evil and their
plans are so so heinous and
the consequence is so dire that
they know they can only
Implement them if they
genuinely remove the warrior
Spirit from every man on the
planet yeah it's kind of sad
and the warrior spirit is really
important and it's something

that I speak about a lot that
men need to go be men even
in passive my marriage my
husband needs his guide time
it's I need my girl time um the
masculine effemine it's very
important the fact that my
husband hunts and shoots and
does

these things that's very
attractive to me to know that
if all of the grocery stores
faded away that you could go
catch dinner absolutely he
knows how to skin an animal
and they poison that look at
the hunters look at the way
they view Hunters they look

at people in the South this is why they know how to Ranch they know how to farm they know how to to survive on their own which is why they start to poison that mentality which is why I think it's really important that you're speaking to young men about why it is okay okay to be a man giving them permission to be a man in a capacity that I can't give them that permission uh the same way that I try to give women the position to know that don't allow them to delude you to believing that this is

femininity it is not femininity
Lena to have your husband
offer your body to another
man on camera that's the
poisoning they they teach
women that this is sexual
Freedom if this is sexual
Liberation I looked at that and
I saw a slave relationship I
saw a master offering his
slave to another person
because he was just so I just
love Andrew Tate would you
would you like to see with my
wife I would be okay with
that that is horrific that is not
femininity that is not
masculinity correct I

absolutely agree with you on that point you're totally right there and uh I think that's probably one of the most misogynistic things that have happened on the internet in recent times but perhaps are on the right side of the political Spectrum I don't know I don't know which side they're on but if they're on the correct side you seem to get away with things as you all know faith is an essential part of my life my family is always looking for ways to deepen our faith and to grow closer to God and that usually

that's hello.com Candace
hello the number one

United States but um it's very

interesting what you're saying about your husband and fishing and hunting and stuff I completely agree with you and there's another thing about masculinity as a whole that I don't think that a lot of people want to address but it's something that's certainly large in terms of my following because if we break down if anyone's watching this now and they're trying to understand why is Andrew Tate so popular well I believe I have I speak to the base instincts of face instincts face instance and one of the base

instincts also for men I don't
think a lot of people
understand is to a degree is is
peacocking and showing off
to a degree and I do that
fantastically but um it is and
if you look at men
of old and they used to
conquer and they'd wear a
feather from the man they
killed or a piece of gold they
stole there was always that
degree of flexing showing off
and I think it's being
unapologetically masculine
saying yeah I'm a big
successful man and I can
afford all this stuff and this is

who I am and I've worked my
ass off and this is what I have
and I'm not sorry about it and

I've I'm dedicated and I'm
hard working and no I'm not I
don't feel like I should have to
cower or hide or apologize to

the world for any of these
things and I think that's the
reason why a lot of men find
Affinity in my message and

you're right Baseline
masculinity is being attacked
and women women naturally
don't find it attractive to

find a man who's not that way
anyway but Baseline
masculinity is being attacked

because they want you absolutely not only dependent on the government so that the government can decide whether you eat that day and I don't want to be a pessimist but I still think in many ways almost with technological advances it's going to be very difficult to resist I think it's actually scary I don't know how the world's going to be in 100 years from now but I don't know if there's going to be much Freedom left I don't know I don't know about you but I when I look at the things they're doing with cbdc's and

electric cars and the way the
currency is going to change
it's going to be very difficult
to resist

without literally starving to
death so I don't know what's
going to come so learn to
farm learn to farm that's right
let them convince you that's
somehow racist and sexist and
backwards and veganism like
you better learn to do all those
things because we need men
now more than ever right and
also I do believe and this is
going to get me called
misogynistic but I'm going to
say anyway I do believe we

need masculinity especially in the households because I believe that women are more emotionally LED and men are more logically LED it's true and I think that the propaganda machine and the News machine primarily uses emotional arguments as opposed to logical arguments and women fall for them and women fall for the emotional arguments so if you have a woman who's in charge of the household and her man can't resist her uh commands and they put on the news be afraid be afraid

covet's gonna kill everybody
she gets afraid now you have
a whole household of people
with masks on eight vaccines
and down the insanity hole
whereas a man with logic
would sit there and do exactly
what I did and said look all
right let's calm down for two
minutes let's just let's just wait
because the News lies so let's
just wait till Wednesday
before we start taking
injections it's chill so I think
also masculinity is needed
because what they're going to
do when they try and make us
all slaves they're

going to use emotional arguments and they're going to come along with I was talking about Kobe with someone the other day and we're saying how insane it all was and I said imagine how insane something like covid will be once the police force are robotic well imagine once it's all AI no mask done like at least in certain countries and I know because I traveled the entire world doing covid I'll say here Republican then I broke every single covid rule I broke every single lockdown restriction I broke

all of them every single one
never listened anymore I
broke more it's a competition
yeah if it's a competition I
broke from day one I was like
absolutely not I didn't even let
people that were
wearing masks into my house
I was like my baby will not
look up and see somebody
wearing a mask in his crib
that's scary yeah looking like
Bane look over it like that's
just not happening amazing
but um yeah I mean we me
and my brother we moved to
Sweden we resist A coping
from the absolute beginning

we tried our best because
Sweden was completely wide
open absolute insanity but
yeah even to the covet thing if
you look at it the emotional
argument that was used and
how they controlled the world
and they're going to use
emotional arguments to
control us with everything I
talk about the police force
being AI what they're going to
eventually do is say cops
shoot people humans make
mistakes

cops are racist we're going to
give you robot cops that never
make mistakes because cops

are racist and cops can make mistakes but these robots never make mistakes ever and then once all the police force are completely robotic and they've removed all our weapons you think something like covet 2.0 isn't coming you think you're not gonna be locked in your house you think they're just gonna let you live in peace and walk around outside are you an idiot and they're going to do all this with emotional arguments so that's why they want a matriarchy absolutely because with a matriarchy

you can affect it with
emotionality you can sit there
and say the planet is dying
don't you care about the trees
give us all

your money and people will
sit there and go oh yeah I do
feel bad about the planet okay
it's just an extra 18 tax and

they can fall for it so
emotional arguments are how
you get your way with

anything if you give me
somebody if you put
somebody in front of me I can
convince with an emotional
argument I convince of
almost anything almost

anything logic is much harder
to do so we we need
masculinity even in the
household and I'm not I'm just
talking about Baseline
masculinity of just the logic
and the Rocks The Rock Solid
self-assurance to sit there and
say no I'm in charge of this
house let's all just calm down
let's not get emotionally led
by this news channel and let's
be very smart
about what we do and how we
react to things and that's why
it's under attack and I think I
talk about revolutions and I
talk about men being the

military age males who are
going to eventually stand up
et cetera but I'm not be
doomsdays about anything I
don't get arrested for any
accusations but even just
having a masculine Essence
in a household makes the
whole household harder to
Psy up I truly believe that and
I can just think of covid when
I use it as an example because
it's the most recent large
psyop they've attempted on us
where the amount of people I
saved personally I must have
saved 200 people's lives from
That vaccine me personally

just because me as a man
they'd come
to me and go you know I want
to travel and say listen I don't
have time to explain to you
but have I ever been wrong no
don't get it okay a year later
they're like I'm so glad I didn't
get down like I told you I told
you like it's amazing like what
a masculine Essence can do
so that's another reason it's
under attack because if they
can remove the masculine
Essence from society well
now you have a society
imagine a society which you
can control purely with

emotional arguments we're almost there we're I mean we're we are in a matriarchy and this is why they accuse me of being an internalized misogynist because I'm able to think through and acknowledge the flaws of what happens in society when women get power and if you want to know what happens look around you um women fall for emotional arguments the entire time they show us a commercial you know show it's so sad and before they get to the rational aspects of it they're already

invested emotionally um and I think that virtually every societal ill that we are facing today is because of women and I think the greatest recent example of that is the Bud Light controversy because [Music] women need to realize how backwards it is that it took men to stand up to say something was wrong when it was so obviously patently wrong nobody cares for years until men stood up to it so yeah really because it's emotional arguments and and if we also analyze I mean there's certain things that

women can do so much better
than men I said this the other
day I was saying to my
brother my brother had his
daughter here and my niece
was here and I said isn't it
amazing I found this amazing
so isn't it amazing the
patience a mother has with a
toddler I'm like she's been
listening to Peppa Pig for four
hours I would lose my mind I
couldn't do it I simply
couldn't do it so women have
this emotionality which is so
fantastic when it's properly
used when it's put into place
it's supposed to be I would

never drop my child off to a
daycare full of men would
you drop your three-year-old
child to a daycare run
exclusively by males
it'd be weird it's just
something about it is weird I
wouldn't trust the men not to
lose their temper with the kid
I wouldn't understand why all
these men want to be around
these children all day it would
be very weird scenarios so we
all understand innately our
gender roles innately on some
level so women have a
fantastic superpower when it's
properly used but like

everything on Earth if you have a superpower or any kind of power at all and it's put in the wrong direction it can be destructive water if it's going through a dam can power a city if it's not going to damn it's a flood so we have all this emotionality you put in the wrong direction and now they're in positions of power or whatever or they're controlling the culture or they're controlling how uh households are run and they can fall for these emotional traps these very simple basic

emotional traps it's for
Grandma the most basic
dumb level and I I sit there
and say Grandma's 98 98 year
olds die and I don't think she
should die I'm not saying I'm
saying 98 year olds get sick
who said it was covered prove
it was covered she got the flu
last year like what have you
lost your mind but Grandma
which is funny because I
think the average life
expectancy is 73. so if they've
made it to 92. they've done
great they've done great
absolutely and I said that and
people thought that that was

so harsh and so mean because
there you go harsh mean
emotionality yeah and
emotionality is used against
people which is also why they
don't like stoicism is why
when you have a man who's
hard to emotionally affect
they also see him as a threat
I've I've had it from a lot of
people I've said it from I've
had some of the hate mail I've
got and I I get a lot of I
probably get about 10 000
emails a day I'd say about 9
000 of them are support and
one thousand of them are
fervent weirdos and the

weirdos are like you're a psychopath because all this is happening to you you don't even care that it was like they're threatened by the fact that I'm stoic they're threatened by the fact that I won't cry and lose my mind over it they're like oh he has emotional control he's a threat because they can't lie to me they can't sell me and they want you to be emotionally incontinent and this is another thing they're teaching men they're teaching men to act out your feelings so why are they doing that because that

makes you an emotional person and you're easier to control they don't care that that damages Society by extension because when you tell men to act out their feelings that's why you get School shooters that's why you get rapists so I get murderers why does somebody murder someone because he's mad he's acting out his feelings he's not a very stoic person if he goes I hate you bang right so they're teaching all this emotional incontinence in men trying to pretend they care

about Society it's destroying
Society in real time they have
no interest in actually
preserving anything that's
important about masculinity
and the only reason they're
doing it is because that allows
them to use emotional
arguments now they can sit
and say okay these men act
out how they feel so let's
make them angry and they
might Riot and let's make a
Mariah on this street let's
leave some bricks on this
street you understand what
I'm saying it's all absolutely
not only done on purpose and

it's kind of amazing to me that
nobody sits there and
understands the best way you
can rebel against a slave mind
and resist a matrix it's just be
the kind of person who uses
logic is stoic is
emotionally controlled it's
physically strong it's a strong
body is a strong mind who
refuses to be told or labeled as
something you can't label me
as a depressed person you
can't label me as some kind of
disease or some kind of
personality disorder you can't
label me a color I'm Andrew
Tate this is who I am I work

hard for my last name I
understand what's right and
wrong I'm gonna do my
absolute best and that alone in
and of itself is an act of
rebellion against you I mean
Society really started going
down the dream we started
getting into mental health
awareness and this is maybe
one of my most controversial
viewpoints but I said over and
over on the show everybody
needs a therapist they're
talking about their feelings
the truth is is that every
feeling you have isn't valid
doesn't need to be explored

sometimes you just have a wacky feeling and you just let it go and because I my grandfather was such an impact on my life strongest man I've ever known didn't shed a tear at my grandmother's funeral they were together from a time he was 17 years old until her dying day I'm certain he collapsed when he got home of course but this traditional display of masculinity and my grandfather's perspective that a man needs to let it die in his chest you know before uh displaying this emotion had

an impact on me and when I
see like I guess to give a
cultural example someone
like

Prince Harry you know on TV
his arms like this breathing
and showing what he learned
in therapy it makes me want
to die a little it makes me
want to die a little when I see
men acting like this
completely and that's
controversial because they're
supposed to say oh my God
he's so brave it's so stunning
like he's showing this side of
him everything about Prince
Harry to me is what a man

should not be absolutely what
you've done to your family
betraying your family
allowing a woman to assert
that much control over you
that you would for profit
betray your family I mean
everybody's got a family you
know everybody's got family
issues don't even let me get
started you know but the idea
of

selling out your family and
then going the Royal Family
selling out the royal family
and yeah what happened it's
such a display of what's
happened to men what's

happened to masculinity he's
giving up his guns he's never
going to do this anyway it's
all of it is such a public
example of what can happen
the thing is I know I know
what's so interesting is I know
how miserable he is he's
miserable there's no way a
man can be happy in that
scenario because I think
masculine happiness comes
from strength and to a degree
excellence and also comes
from respect men want to be
respected and he doesn't
respect himself his family
doesn't respect him and his

woman doesn't respect him I
know how unhappy
he is I know how unhappy she
is by extension it's just an
unhappy miserable house he
gave up everything and
gained absolutely and utterly
nothing this whole therapy
thing the reason I believe they
push therapy so heavily is
because it goes into
something I said a little bit
earlier about selfishness if
you convince somebody that
they have to spend hours and
hours per week sitting in a
chair talking about that
feeling they had last Thursday

in the kitchen it's crazy it's
insane you want to talk about
creating mental illness there it
is this exasperates problems
this makes it worse and it also
builds this culture of
absolutely not or selfishness
excuse me they're trying to
put you
in jail for the rest of your life
effectively because they're
going to enslave you and
they're going to control all the
money and they're going to
make sure you get injections
you don't need yeah yeah but
you know I'm sad I got
therapy I'll talk about it later

that's all they want they just
want you to be so obsessed
with how you feel in your
own mind that you can't even
look outside of yourself and
care about anything it's part of
the propaganda machine it's
part of the mechanism to turn
us all into docile farm animals

I said this to somebody the
other day they were talking
about how they feel and say
who cares how you feel and
he goes well what do you
mean well I don't care you're
telling me I know

you and I don't care so all the
people who don't know you

don't care the woman you
want doesn't care you can't go
up to a chick in a bar and say
you know what usually I'm
really Charming today I'm a
bit sad can you give me a pass
can you let me off go away
weirdo the people the chick
you want doesn't care the job
you're supposed to perform at
doesn't care if the man who
wants to mug you decides to
pull a machete he doesn't care
you can't say bro I'm on the
mood for a fight today
tomorrow please nobody
cares so why do you care all
the people out here in the

world don't care but you're
gonna sit there and you're
going to carry me the only
person in the world who cares
you're going to walk around
telling

everybody trying to find
somebody who gives good
luck because what's going to
happen is you're going to
walk around feeling sorry for
yourself trying to find
somebody who cares you
might find somebody who
pretends to care long enough
for you to get a little bit of
dopamine but all in all you're
wasting time in a hyper

competitive world where
people like me who perform
regardless of how they feel
are just going to perpetually
bury you and then you're
gonna sit there and wake up
and go why am I a loser well
because when Andrew was
sad he continued to perform
when Andrew was in jail his
business didn't fall apart he
was doing push-ups every day
his body didn't fall
apart nothing about his life
degraded when he was in a
jail cell surrounded by
cockroaches you're in a
plushy bed at home crying

about what and you expect the
male world's hyper
competitive so you're not
allowed almost as a man to
put that much importance on
how you feel you don't have
time to care about it because
you have too much to do this
is why I find so remarkable if
I feel sad I don't think how do
I stop myself I need to not
feel sad I just go to work I got
stuff to do I'm a man I have
things to do every single day
this whole therapy garbage I
can't think of a way faster to
ruin your mindset and destroy
your ability to resist the Perils

of life then go into therapy
and the over diagnoses of
everything it's like you have
this you have that and then
people take that as an excuse
to not ever have to get better
no it now I can be permanent
because I realize that I've got
this I went to the doctor and
the doctor says that I have this
and so that's the reason why I
don't respond I've got I've got
ADHD I think now it's like
one in ever two people has
HD ADHD and that's why I'm
not able to focus and do my
homework or complete a task
or keep going to the gym

every single day yeah it's a self-fulfilling prophecy and I really can't think of a quicker way to destroy your mind than go to therapy part of me if I had time to waste Candace which I don't because I've been on house arrest long enough and once I'm out here I'm going to enjoy myself but if I had time to waste I would love to go to start therapy I would love to like imagine me agitate go to a therapist and she's not going to know who I am and I'm gonna sit there I'm gonna do therapists and I'm gonna do a

video I might actually do this
it's actually a great idea I'm
gonna do video after each
therapy about what [__] was
and just sitting there talking
about okay when you were
eight yeah what happened
when you were eight because
when in your childhood no
everything's because of my
childhood not everything
works that way like it's so
asinine I've actually had
conversations with therapists I
think twice in my life I did a
TV show in England and I
had to speak to a therapist and
then um I think it was another

TV show two TV shows I had to speak to these therapists and I sat there and said I don't believe in what I don't believe in your science because in math one plus one is two and we understand that whereas with what you teach you can have a guy who doesn't drink alcohol because his dad was an alcoholic and a guy who is an alcoholic because his dad was an alcoholic so how can you have the same scenario in two completely different outcomes she goes oh yeah but there's general rules we can follow that's the

understand the conversation
I'm not a general person I'm
not a general person I'm
exceptional so can we just
stop wasting
everybody's time here because
all your general rules to apply
to me I'm smarter than you
what have you achieved
goodbye I'm a world
champion see ya like it's
garbage and I I really do
believe I think there is this
Mass drive to instill the idea
of absolute selfishness in
people I think they're trying to
when I really analyze the
ideal citizen they want the

ideal citizen is yes docile and
yes he's unique but he's also
ultimately selfish because
then you don't care about
community and I think
therapy is a fantastic way to
make you selfish because
that's all you talk about is
when you talk about garbage
yeah why you have the right
to act this way even if I'm
terrible yeah why did I do
well you know when I was
nine a life that's really Prince
Harry's book honestly is it
yeah I'd say I I can only get
past the first two chapters I
was like this is it should have

just been called privileged
you know what I mean and
this is the thing these aren't
even struggles and here's the
thing I I think Margaret
Thatcher said the best
upbringing you can have is
good parents and no money
because you look at Prince
Harry with the you can't talk
about anything better for a
perfect upbringing Royal
Family come on it's not his
fault right royal family fine
but he was supposed to have
gone to the Army he went to
Afghanistan and supposedly
he fought but if you don't give

a man struggle look what he
becomes tell
me the kind of man if I were
to say to you imagine a man
who's never struggled in his
life physically mentally
everything's gone perfect for
him it's boring the royal
family everything's been
perfect for him his whole life
is that the kind of man
anybody respects that kind of
man anyone wants to be and
struggle is subjective right so
Prince Harry dealing with his
dealing with his current
problems of his wife nagging
to him that's full mental

breakdown right my problems are obviously much larger but struggle is subjective to him to us they're almost on the same level but if you were to compare them side by side they're absolutely nothing so as a man you have to build resilience and you build resilience through going through something and building a tolerance to it and this guy's had such a privileged life that he's ended up a miserable depressed unhappy person so this is what's actually very interesting when men come to

me or young boys come to me
and talk about something bad
that happened to him I said
good absolutely not really
good you should be glad that
thing happened to you
because that's the reason
you're gonna be the man who
can resist the Perils of life in
the future if bad things don't
happen to you you're gonna
end up like Prince Harry you
do want to end up like that
dude do you yeah exactly so
whatever life's gonna be so
easy you're gonna get to the
end result
and your wife's just gonna

wreck you so you need to have all these bad things happen to you so you build the mental resilience and that's another thing about masculinity and males as a whole we're trying to take that all away from them in almost every regard and it's kind of like there used to be like Rites of Passage where a boy would become a man that's all gone there used to be this masculine very healthy peer pressure to be big and strong and that's all gone there used to be I mean I don't want to use the wrong words I don't

want to get attacked for it but
men used to consciously not
pick on each other not bully
each other but hey you can't
do push-ups you're weak we'd
push

each other in that way shame
each other to Excellence
almost we still do it to this
day in this house Tristan's
bigger than me he's 10 kilo
bigger me six foot four I'm six
foot three I'm smaller he'll
bench 160 170 kilo I can only
bench like 150 kilo he'll call
me for three hours like that's
just how we are so I have to
get up and try again that's

how men are women are too
and that's what I'm really
again sorry to cut you off but
I'm super against this this
parenting structure where you
don't want anybody's feelings
to get hurt I'm one of three
sisters we're a year and a half
apart we tried to kill each
other you know what I mean
all I would do is call my sister
no one has called her ugly or
more you know what I
mean I'm like you're ugly
you're this you're fat that's
actually good you know it
makes you tougher and when
you see these only chat

children who've never gone through anything their parents told them they are perfect and wonderful and I'm thinking I wouldn't trade my childhood trying me myself just trying to kill each other you know every single day it's difficult over a t-shirt yeah and it doesn't matter how much money you have life is always going to be difficult it doesn't matter how much you're trying to shelter your children how rich you are what family they're born into life is going to be difficult and if there is no struggle in their life they're

going to find struggle or
something
that shouldn't be a struggle
will become a struggle for
them because their life has
been so sheltered and life is
hard so if you can't avoid the
difficulty you may as well get
very good at it you may as get
good at difficulty and it's
amazing when you look at
someone like Prince Harry
he's just a man who has not
become very good at
difficulty and he's just
completely collapsed in the
face of a woman who's
complaining at him and yeah

the even worse than all that
the dishonor of of selling out
we were talking about how I
feel a duty to my bloodline
and my last name and I have
to do my father proud he's
from the British royal family
like and he had no honor he
couldn't even sit and say look
listen

I couldn't even shut up for
them yeah literally he had to
sell out in a book like God
does not smile favorably on
people who make these side
of decisions and I think that's
why he's going to be unhappy
for a very long time and he's

going to realize that it was never worth it and what did he do it for money from the royal family my friend you really need money that bad like it's it's truly shameful and I think to see in treachery are the most heinous and most disliked personal qualities or something you can actually witness somebody do I think everybody hates them and it's because anybody can fall victim to them anybody can fall victim to deceit or treachery because you trust that person everybody trusts someone

right so that person turns on
you you're always in trouble
so I think he he thinks that he
has the populace on his side
but I don't think he
understands that when you
out yourself as a snake
everybody intrinsically
dislikes you even if they
enjoyed watching the show oh
completely they've stepped
away and went okay because I
gave the example on my show
you know you have the
Kardashian family and but the
one thing about them is they
they're thicker than thieves so
America does like a reality

show right like a reality show
but the reason why they have
gained popularity is because
actually they always back
each other up they still
remained a family unit and
when you betray that when
you betray family I think left
and right you just kind of go
okay maybe that was a little
too much it was fun to watch
fun to watch but but we don't
really trust you I don't want to
be your friend I want to be
afraid yeah completely I mean
you're gonna sell your own
brother out what am I to you
right if you do that to your

own brother what am I to you
absolutely crazy and then he
wonders why and I also think
what he probably doesn't
understand maybe he's
watching this you never know
he might hello Harry who's
watching this I don't think he
even understands that even
his woman views him that
way even Megan views you
that way even Megan looks at
you and
goes I complained at you over
William and you were
supposed to tell me to be
quiet and you didn't so now I
think and you wonder why

she's never happy so now he's
in big trouble I don't know
what he's going to do with his
life but he's in big trouble but
it's kind of it's interesting
where I don't see how it's
actually an interesting
conversation to have about
how psyops can work as a
whole because when I analyze
especially as a man and I
always talk from the
masculine frame not because
I'm a misogynist but because
I'm a man and I understand
the mask and frame because I
am a man if you stray from
the ark type of masculinity if

you stray from honor courage
if you're not dutiful if you
don't believe in putting honor
in your last name if you want
to be physically and mentally
strong if you don't believe in
finding problems to solve you
don't believe in having a
difficult life if you stray from
this because you've been
psyot to stray from it all you
end up with is misery and it's
amazing that people will see
anybody who's strayed from it
end up Perma miserable and
still fall for the psyop I find it
incredible that people don't
think logically long enough to

sit and say okay whose life do
I actually want I would never
adopt the thinking of
somebody whose life I didn't
want I I don't know why
people even do that I could sit
and have a conversation with
Prince Harry for
10 hours straight and he could
be as compendous and
convincing and concise and
and he could be extremely
perfectly articulate with his
points and at the end of it I'd
say yeah but I don't want to be
you so I don't want to think
like you so get [__] but I
wouldn't want to listen to him

so I I don't know why people
don't even just wake up and
go okay whose life do I want
to live what kind of person do
I want to be who do I want to
be like that's the kind of
thinking I need to adopt and
install in my mind because
we're all being programmed
by someone to a degree and I
don't think you can escape
programming you can just
choose the programming that
you are going to install inside
of your

mind I'm not going to sit and
say I'm not program my father
programmed me my fight

coach programming the
friends I have around me
programming my brother
programs me my Social
Circle programs maybe we're
all programmed to a degree
you have to be very careful
who you're going to allow
give you the programming
because if you put it up to
society and culture the current
culture as a man you're gonna
end up like Prince Harry do
you want to be Prince Harry
it's a big question the answer
is no yeah the answer is no it's
interesting what you said
earlier about putting things

back to biology because a lot of human nature is certainly animalistically biological biological and even if we look at Harry and Megan and how they interact in their home I obviously don't know but I can almost guess to the T the arguments they're having I can imagine him saying I gave up my family for you you just what you wanted I gave you what you wanted why why why aren't you happy I gave you everything you liked and he's trying to use a logical or an emotional he's trying to use an

emotional argument but they
ain't going to work because
she doesn't respect him but
he's trying to use a logical
argument with her trying to
understand why she treats him
so badly after he completely
not only complied but humans
are biological and she as a
woman wanted him to be a
man

she wanted him to have some
degree of parameter and
barrier and if you don't put up
any parameter or a barrier as a
man what a woman's gonna
do is she's going to push you
and push you and push you

and push you he's going to see
how far she can push you
that's the reality of it we can
talk about any relationship
whether it's Mary and uh
sorry Harry and Megan or any
other relationship if you're a
full-grown man and you don't
set parameters or set barriers
the woman's gonna push you
and push you and push you
until she eventually finds one
and we're going can also we
can look at that in a romantic
relationship but also people
people in general if you're
going to give to a taker they're
going to take and take and

take and take until you
eventually say no that's how
humans work so she was
waiting for him on a
biological level to stand up
and be a man and say listen
you've joined the royal family
you're right you had to bow to
the Queen of England correct
because it's the royal family
get over it that's what that's all
he had to do you're gonna
save himself all this mess be
could have saved himself all
the running away and looking
like a fool and upcoming
divorce and all this garbage
dude just put his foot down he

never did and she was trying
to inspire in him the warrior I
think a woman sometimes
tests a man to say okay how
much will he put up with
because they want to see are
you a

man or not what if what if a
man's given you [__] what
will you do they want to see if
you're about it and she was
just testing him and he failed
every time and that's why he's
tried to Perma please her and
now he's in a situation where
he's asking her while she why
she's unhappy when he's
giving her everything she

wants and she's unhappy
because you gave her
everything she wants because
you're a punk women don't
want neutered men they don't
if they even if they personally
neuter them themselves it's
not what they want in the end
so I'll ask the question what
do you think men want in
women that's a really good
question and I can answer that
one easily I think that the
masculine
realm that we operate in is
based on respect I think that
men are constantly looking
for a way to be respected I

think the world is hyper competitive and we're constantly always looking for status amongst our peers this is why you will see a man give up his basically entire life to do something which will only gain him respect even in a very small sphere there are CEOs who go to work every day and don't even see their family and give up their entire life and work 12-hour days just to feel like the man in that office feeling important in that one office in that one skyscraper is worth him giving up his life because

he feels like he Mars and if he gets more respect in that office than he does at home or anywhere else that's where he's going to want to be men function on that so if I had to build the ideal woman who could get any man on Earth what she would have to do is understand that I need to give my man as much status and as much respect as possible I by extension of him being next to him need to make him look respected and a lot of this is the easy things we know no one's going to respect the man who's with an ultra

promiscuous woman men no
one's going to respect the man
who's with a woman who is
back talking to him or
horrible to him in public no
one's going to respect the man
as a woman who clearly isn't
interested in him sexually
whatever that's all the obvious
part but the hidden
actual message behind all of it
is that men are constantly
looking for status and respect
and a woman who makes her
man feel respected not only
from her but from his peers
it's the kind of woman a man
is never going to want to lose

so if I had a woman and I came home with all five of my friends and she came in the house and said came in the room who's hungry you don't want any food it's not about food I'm the G now I'm the big boss my woman wants to feed all of us of the guys there most of their chicks won't would never do that that's respect that status for me that elevates my status so I think as a woman if you truly if you're watching this and you want to keep a man happy you need to wake up and say how can I improve

the status of my man to his peers how can I make him look more important to the world and as long as you take that basic mental frame you can extrapolate that out to anything your man's not going to feel high status and important if you've had a whole bunch of sexual partners because you're promiscuous so obviously that's the Downs that's no he's not going to feel high status and important if you belittle him in front of his friends or you argue with him in front of his friends he's not going to

feel high State it's important if
you disagree with him on
small minor issues about if he
votes one way just vote the
same way like these small
votings not small thing
but these things make the man
look and charge it increases
and status and that's what he's
most interested in a woman so
that's what men are looking
for for the whole that's the
secret for the women who are
out at home they were going
men are hard to please no
men are actually very simple
to please make him feel
important and make him look

important that's it since when
did we decide to stop
upholding free speech is a
basic right obviously
everyone should have the
right to express themselves
freely sadly the big Tech
Monopoly has instead opted
for silencing tactics and
censorship to fight back

internet I use expressvpn ever
wondered how free to access

from Families my parents are
divorced your parents were

divorced I think your parents
maybe last a little longer than
my

parents totally positive what
was your mother like I don't
think I've learned anything
about her yeah so I had a
fantastic mom she did what a
mother was supposed to do I
guess I was raised in a hyper I
call it hyper traditional the
modern world will call it
mask we'll call it misogynistic
household my father was in
charge it was his household
my mother was in charge of
feeding us and clothing us and
sending us to school and she

did a fantastic job I think that
as a boy as as a man I always
want to emulate my father my
father was a superhero so my
father instilled a lot of the
mindset that I have but my
mother did a lot of the basic
things that kept me alive if if
that makes sense um she was
a fantastic

mom and she's still alive
today and I love her very
much one of the first things I
did when I got rich was retire
her completely so she is one
of the people I take care of
and I'll take care of the rest of
her life and she did the

absolute best she could and uh
that's the reason we moved to
England they decided to get
divorced and England has a
better social care system we
had no money so uh we got
moved to England and I grew
up in Luton which is the
worst town in England in an
area called Marsh Farm which
is the worst area of the worst
town so it's like as bad as you
can get like the worst place
you can possibly go I think
my school had a four percent
pass rate or something
ridiculously low so I grew up
in a

really bad area but my mother
yeah she was fantastic and she
did the absolute best she
could and uh she always
loved my father to the end but
I think my father in many
ways almost there's certainly
been a lot of circumstances
where he sacrificed his
marriage to raise us in a very
particular way because he he
my mother and father would
argue most over the raising of
me and Tristan because my
dad was so hard on us but he
said look you boys are my
legacy are more important
than arguing with their

mother so I think that's
actually why they broke up
because it was so hard on us
but um I thank him for it so
yeah but I I I don't want to I
don't want to disrespect my
mother my mother by saying
there

isn't much more to say besides
the fact she was a very nice
very loving very attentive
mother that's what she did but
my dad was always my
superhero I I don't know what
else to say my dad was my
superhero I see it now my
son's only two and he just he's
now toddler terrorist wakes

up every day wants to go to
war I don't want to go to I just
want to love him yeah and so
he just he is obsessed with my
husband I mean forget it the
second my husband walks the
doors I don't even exist right
forget the fact when I held
him for 10 months I don't
exist but unless he's sick yeah
yeah oh then it's like totally
mommy mommy oh
completely oh okay okay so
when you want to go to war
all day and
you're feeling great it's like
Dad he literally just wants to
fight him he just he goes up

and he hits him and he wants him to be thrown around and I don't want to do it like you're kind of big I don't want to toss you around go find your father um so there actually is a natural proclivity that goes on there too where like in the way he acts when a man walks in the door Any Man by the way he he my son wants their attention you can see that he seeks their approval at the age of two he wants to be he'll cry in front of the girls you know it's me it's my assistant if it's girls he's putting on that one of the

guys are there he's much more
he instantly stops the crying
and stops the tears so it's so
interesting to watch that and
examine that and

just a two-year-old so well
that's biological right this is
how we charge the gunfire
this is how men charge at the
gunfire because we want the
respect of our peers we will
literally commit suicide for
the respect of our peers like
it's something that's deep
inside of us where it used to
be it should be they're trying
to take it away from us but
how do you get men to go

over the trench over the line
and charge up machine guns
well you do it because
everyone else is doing it and
you don't want to be the only
so you have to do it and you
have to die like that doesn't
make sense think about it
logically it doesn't make any
sense logically but it's
something biological inside of
all of us because we have this
innate feeling of Duty and
honor and that's where the
courage comes from and
they're trying to destroy that
along with everything else but
you're right this is how men

biologically uh are designed
to be and I was the same
when I was young I remember
looking at my dad just going
you're a superhero and I want
to be a superhero that's just
how that's how it was so uh
but yeah my mother's
fantastic and I love her very
much and she's very proud of
me and she's very proud of
how we were raised and she's
so glad we're strong even
when we were in jail she was
very concerned but she's like
look I know that if anyone
can do it you can do it and uh
yeah so do you want to be

married good question I
heard that's the lover boy
tactic we'll talk about that in a
little bit but and that's an
interesting question because
younger me younger me
would say no absolutely not
and and the reason younger
me would say no is because
I've come up with all the
arguments that there's no legal
Advantage really and the
woman can wreck you and
you can lose all of your things
Etc what's the point I don't
want the government involved
in my life all those kind of
arguments but as I get older

maybe I'm getting a bit softer
maybe I do think sometimes
you need to make a decision
based purely on love and have
the faith of of love and faith
in your love enough to to say
I don't care what
the government's going to do
about this because I truly
believe in us and I think we're
going to make it so would I
get married perhaps some
point yes in the future I might
get married yeah I'm not
against marriage like I used to
be I used to be super against it
and I think that's because I
grew up in a environment

where everybody was divorced everyone so it's like well what's the point in this oh wait so I give her half my stuff and then what what I don't I didn't understand the whole point of it but now I think if I met the right woman perhaps yes yeah marriage is is good yeah convert me yeah if it's the right person should marry the right person and I'm saying to someone who grew up with divorced parents um well they got they got divorced after I was out of the house but it and this gets it speaks to your

earlier point about it either impacts you one way or the other either want marriage because your parents are divorced you don't want marriage I desperately wanted marriage and I think the ways in which we both have grown yeah um and the confidence that it gives you I think there is something about people like how do you do it every day because you cannot impact my life is so stable the nucleus of our household is so stable and to be able to raise kids and have them see that example of the perfect Ian and

the Yang there's something
Divine about it there's
something spiritual about it
it's

why I won't accept you I think
you are actually a Libertarian
right now and I won't accept
you as a Libertarian I think
you will not be one in a few
years if I had to make a
prediction I think you will
lean towards conservatism
because even in just the crack
of you talking about the attack
on masculinity because first
you say oh well if everyone
wants to do what they want to
do if you guys all agree and

you want to be homosexual is
fine but then you'll start to
realize that that libertarianism
Live and Let Live is what
welcomes in through the door
I'm you know very against
every every ill that
homosexuality has brought
and again these are two these
are consenting people that are
doing
what they want to do this is
true but look evil is evil Sin is
Sin and where yesterday
talking about homosexual
marriage today we're talking
about transition well it's such
a slippery slope this is the

thing right you're completely right because the idea of Live and Let Live was a fantastic one if it could actually operate without slippery slopes into sending it to Canada chaos and Anarchy and it can't so this is the difficult thing about it you get called a bigot for saying this is my line I don't agree with this and you're going to be called bigoted you're going to be attacked but truthfully it's just understanding that like you're saying it's a slippery slope and it's unfortunate what is the slope that

we want then okay then we
should Aspire towards
heterosexual relationships you
can Inspire towards marriage
and this is this is the mold that
I am selling all the time
wouldn't have said this 10
years ago I was probably
more libertarian when I first
got into politics and oh what's
the big deal if people want to
do this to themselves and then
I realize no there there is a
reason yeah um no and you're
completely right the reason I
gave that example is because
I'm currently in illegal
Jeopardy where or a legal

situation where people who
have nothing to do with are
my life are trying to say that
people were victims when
they weren't when everyone
was consenting and you're
right I agree
with you there I also think
with the whole LGBT
argument it's interesting
because I will be honest and
say I do think there is a
difference between G and T I
think they are different things
of course they're massively
different things however
you're right it's a shame it's
such a slippery slope where

you can't just say to people
Live and Let Live because it's
going to be hijacked and
Trojan Horse and they're
going to Trojan Horse it and
they're going to inject
something in it that destroys
the lives of every single
person on the planet and
they're going to try and do it
so you have to draw a hard
line you have to be a bigot
you have to never give an
inch because if you give an
inch they take 10
miles more than 10 miles look
at let me look where we're at I
mean [Music] none of it

makes any sense and but these
are real evils that we're
fighting today and I think it's
because we haven't put those
firm lines in the sand and said
no actually there is such a
thing as right and wrong well
this is the thing I love about
and this is where religion
comes in right because I used
to be an atheist and then you
exactly what you just said
about there's something
Divine about marriage and
exactly like you said there's
such a thing as Sin everything
you're talking about is
religious you're completely

correct you eventually if
you're going to wake up and
be the kind of person who has
hard parameters and said
this is right this is wrong it's
very difficult to do that
without then turning and
understanding that has to
come from God who else is
going to decide what is right
and what is wrong and people
say oh they're all man-made
religions well then why does
it go against so many of the
wills of man some of the sins
that men want to go and do
the religions are against if we
made a religion a religion

wouldn't be against our own
sins would it right so it's it's
it's interesting that this is
almost proof for God in so
many ways when you're going
to wake up and realize that
there is genuine evil in the
world and there's genuine
good in the world and there
are two sides and two camps
and I do believe that the good
is on

the side of Truth and I do
believe that comes from God
and there's many different
ways to God I think there is
one God and there's different
religions and I don't argue that

the differences between
between the religions because
I think we have a lot more in
common than we have uh
especially in the fight against
evil than we have as
differences but yeah it's super
interesting and you're right
firm lines are absolutely not
really required and and if we
don't have them it's why
societies ends up in the
position to sin with so many
subjective lines and your truth
my truth the truth or and
you're and you're completely
correct it's not very often I sit
with somebody who I feel like

says
something and I feel corrected
but you're right Live and Let
Live is hijacked it's hijacked
and it's unfortunate it that me
as a person now especially
and maybe this is a personal
maybe this is more of a
personal thing maybe it's
more of a personality trait
where I'm in the position I'm
in I'm saying what I believe is
the truth and I'm out here
trying to help people and I'm
saying about the difficulties I
went through my life so
others don't have to go
through them just as you said

but if somebody doesn't want
to listen to me I'm like okay
you don't want to listen to me
I don't care you do what you
want but that Live and Let
Live mind frame can be
hijacked because what I'm
saying to people okay
don't do what I want or don't
do what I believe to be good
don't do what God believes to
be good do what you want I
don't care and then they get in
a large enough group and they
end up attacking morale it
redefines yeah normalcy
redefines morality and you
know I recently was saying

I'm having a conversation
with a friend of mine Brandon
and I when I first got into
politics I wasn't so staunchly
against homosexual marriage
I didn't speak out on certain
things abortion and then I saw
it firsthand I would I just
examined just the differences
in my relationships with
heterosexual couples and
homosexual couples and
homosexual couples I'm
talking about two men you
don't realize
that God designed a man to be
with a woman because it
prevents men from giving

from giving entirely into the worst components of who men are section just having sex they can't do that if you're with a woman okay maybe it's menstruation maybe it's pregnancy maybe it's after birth but there are these natural barriers that make it so that your relationship has to be about something else other than just sex when I'm with my homosexual friends they talk about sex I don't think they realize that heterosexual couples don't just sit down for lunch and be like we banged 20 times last night because we

could they think that that's
normal so then you talk about
how that bleeds into
pornography that
bleeds into want to talk about
sexuality in the classroom
how that might bleed in to
suddenly wanted to speak to
Children about sex and all this
is all normal it's actually not
normal but because it's
normal in a homosexual
relationship you think that it's
actually normal totally right
so I have suddenly realized
and this is why I become so
starchly conservative how it
all bleeds into everything and

there is such a thing as
objective rightness and there
is such a thing as objective
wrongness completely correct
and I agree with absolutely
everything you just said so
my question would be then
what do we do do we force
everybody to be Christians or

Force everybody to be
religious or how do we do it
well I think the first thing is
Having the courage to talk
about it and and nobody even
talks about these topics
anymore because they just go
oh they've won so we need to
let this go and and more and

more you're seeing culturally
people are afraid of being
canceled I mean what I just
said to you is grounds for
cancellation how dare you
question this how dare you I
even believe now after seeing
the ways in which society has
made children children
believe that they're all trans I
didn't I went to University I
went to high school I didn't
graduate with a single trans
person now you want me to
believe one in four children
suffers from identity issues no
that's socialization you place
that on

them so is it such a far stretch
to imagine that the same
happened in the homo section
when homosexuality came to
America and then we
popularized it and we put
Helen Ellen on TV and we
gave Melissa Etheridge a
platform and suddenly Pride
parades were happening
everywhere whereas you don't
see this here you don't
because you don't see this
here in Romania because we
haven't this is the power of
culture this is the power of
Pop Culture when you make
something you have to go the

other way you need to
normalize it you need to you
need to say actually this is
abnormal absolutely and this
is what normal is and it's not
both so yeah I've become very
conservative in all these
perspectives if you're
completely correct you nailed
it when I when I I said do we
force someone to be Christian
you nailed it by changing to
the exact thing I was going to
say it's about culture it's a
cultural issue and it's
completely Nutley correct and
I think that's actually one of
the reasons why I mean I

don't State this with arrogance
I don't want people to
understand I'm not trying to
be arrogant I'm trying to make
people understand the
situation I'm in I was the most
Googled man on the planet at
one point so I had a massive
impact on the culture and it
was dragging in the complete
opposite direction that the
culture wants to move in I'm
dragging men in the complete
opposite direction that the
satanists
and the people who want to
turn us all into slaves want us
to go in so I think that

anybody who sits at home and realizes that my legal troubles appearing basically directly after that is a coincidence then you're awfully naive so it's it's unfortunate also that the way the world works at a certain level of influence and power the justice system almost breaks down we see that even in America and most other countries all just becomes a big game and a Big Show and it's about power plays and a whole bunch of conversations behind the scenes it's not about Justice anymore so it's very it's very concerning

because you are right we are
in a culture war and it's
culture which is absolutely
not
really defining the direction in
which we move and this is
one of the reasons why I
reverted to Islam because I
feel like the Islamic culture is
the strongest you feel the
culture you feel it you were
Christian and you know I
definitely do not know
enough about the Islamic faith
to sit here and debate you on
it I'm never a person that will
debate somebody on
something that I'm not an

expertise on but I will say that

I'm sad that you're not a
Christian anymore because I
and I I can sense perhaps it's

because you felt that
Christians weren't doing a
good job defending their
beliefs yeah I think that God
should be feared I believe that
God should be feared I Fear
God it's one of the only things
I fear and I

believe that also you see God
to degree or you see religion
how you see yourself and I
see myself as a person of
strong principles and strong
morals and I like to think of

myself as the kind of person
nobody really wants to cross
not because I'm a psycho but
because I'm a man of
capability and I'm smart and
I'm strong and nobody wants
to make an enemy of me so I
feel like I find an affinity to a
belief system which has very
similar outlooks and there's a
whole bunch of other things I
can say from the Quran and
Islamic texts Etc but to keep it
very vague and very broad for
people who are not Islamic I
felt God when I was in an
Islamic country if I went to an
Islamic country I felt God you

don't feel any God how is it a Christian country if satanists are mocking Jesus on the streets I I understand what you're saying and I I was trying to gather in my head what made him what pulled him away from Christianity and I said it's probably the example if you're thinking that America is a Christian country and you're thinking that the United Kingdom is a Christian country they're not they're not going Christianity is getting it wrong and the truth is that America is no longer a Christian country

we're being run by people that
are satanic Hollywood is
satanic and Hollywood is
running America right so
you're not wrong but I think
that right now America is
facing a spiritual battle and
for the first time in a very
long time Christians are
starting to stand up and speak
about our principles I hope so
and I could have used you I
know but I have seen in
California I've seen Christians
and Muslims get side by side
when they were complaining
about the LGBT I did see the
schools which is fantastic and

I know what you're saying saying and that is true but it's almost like when I go to an Islamic country I feel God around I you see it you see it in the way the people are dressed you see it and the fact that everyone's in a family you see it in the fact that there's a mosque on every corner it's in the air and it's almost like when I'm in Dubai and I'm talking to my friends my Islamic friends and I explain to them the things you have to protect your child from in an American school they literally

think I'm lying they're like no
surely like it's my vending to
them not African countries
that are Christian okay so
yeah this is interesting so
yeah they still are mind blown
by the concept of what we're
fighting in America America
is unique we shouldn't say
that this is the blanket you're
right they're right there are
Christian countries which still
stay Christians what do you
mean men can be women like
they think you're crazy and
we're in Romania and
Romania is a country which is
very conservative and very

very Christian and they don't
buy into any of this garbage
none

of it so this is absolutely not
only true it's unfair to say all
Christian countries are like
America's exception and not
not in a good way yeah I think
they're like the whole West is
unfortunately the West the
West is I've stayed on my
show the entire time the West
is falling the fact that we're
even having these debates is
is not good yeah the West has
fallen and unfortunately
Russia Christian country yeah
absolutely a very Christian

country so yeah you are right
but I've I felt an affinity to
Islam I felt gold in the air and
it's it's difficult for me to
explain any other way okay
that's fair enough I I won't
push you any further on that
all right let's get to your case
that's happening today so and
why

conservatives are screaming
about it in America and why
they feel that Tucker didn't
push you enough on this case
push me okay so first and
foremost one thing I want to
clarify people that are
watching this is that there

seems to be this understanding that you are being prosecuted or you're being indicted rather for human sex trafficking charges I've read the indictment and I do want to make it clear the words human sex trafficking occur on the indictment but then it very makes it very clear that what they're referring to is they've kind of extended the term it's not what we think about in America when you think of a bunch of children being put into a truck and taking over the Border against their will

they're basically saying that if you if you trick a woman into coming into a country by using the lover boy method then they consider that to be human sex trafficking so the definition has definitely expanded over time so it's also ridiculously misogynistic to believe that women can't make their own decisions on anything so the whole thing about it is misogynistic but yeah you're correct that's a very important distinction essentially what they're saying is we have a show in America called 90 Day Fiance that is

the lover boy method is
women that that go over to
the U.S they're clearly coming
for citizenship but these
women kind of get duped and
they get they sponsor these
people this would be the same
vein of

what they're trying to describe

I've read it myself of what
human sex trafficking can be
which is it's not a woman fell
for you fell in love moved
over here overseas but it's
only because you were very
convincing that is the
definition given in the
indictment of what they're

referring to correct so I I'll give a very quick rundown on the case everything from these old videos old clips my webcam company things that happened 10 years ago have absolutely nothing to do with the correct case absolutely zero anything you see from before 2021 has nothing to do with the case the case against me is that from 2021 my brother and I when we were already worth hundreds of millions of dollars and already successful and famous create an organized criminal group and Our intention was

to convince women to move to Romania to make Tick Tock videos so we could steal the tick tock money and Tick Tock and they mention only fans correct on the indictment page and they say that you did this using the lover boy method and it almost reads what's interesting to me why I was compelled by this case is just that because they tremendously changed it when they were investigating you we were told that there was a woman who went to the UN who escaped your grip and that you know she she

said I've been held captive
and then after they
investigated they came up
with what it sounded like
regurgitated Andrew Tate
videos they love our boy
method which is in one of
your videos where you're
talking about women so it
seems like during that time
where they held you in the
cell perhaps the initial case
that they fed to the media fell
apart yeah I believe what
happened and I have to be
very careful what I say but
what I believe happened is in
April of last year Tristan and I

had some visitors here from America who were only in the country for five days made some very strange demands financially when they were rejected they called the American Embassy and said they had been kidnapped those two women we deem now to be professionals one of them has accused seven men of kidnapping in her life and she's also lawyered up instantly from a left-wing NGO because she's currently being sued by us for false charges and she seemed to be

very well supported and funded so I don't know if she was sent as an agent we're not entirely sure so this is a very interesting beginning to all of this in April the Romanian authorities arrested US for precisely two hours and threw it out and knew it was all garbage from the beginning the case remained open nobody understood why the case remained open my lawyer made repeated requests to close the case they wouldn't close the case and it remained open and absolutely not really dormant when I was

canceled when I was deleted
across all social media and
canceled and lost my bank
accounts my Uber account my
stripe account my Gmail
absolutely everything literally
within the same week the case
was picked back up which
was very strange I was
followed they tried to find
evidence of any kind of crime
at all they couldn't find any
crimes whatsoever they then
raided my house for a second
time with the intent of getting
my electronics which they got
they went through all of my
electronics and they could

find nothing of actual Criminal Intent what they did find is my brother and I and our personal assistant because at the time if anyone who knows on the Internet or has been around for a while will remember my face was all over Tick Tock you could not get rid of my face on Tick Tock me and my brother were explaining our strategy for how we got so big on Tick Tock to some friends of ours they then said that we were forcing them to do the tick tocks for our money for our brand they made this huge

reach and said it's human trafficking because we're forcing women to make Tick Tock videos yeah so that's the part that registered to me as strange it started as a kid we were told it was kidnapping which is quite it's very serious that somebody fled to the U.S embassy this is the woman that you're talking about that you say but you're alleging has also accused seven other men it's literally now on Twitter you can see the file the complaint we filed against our seven men she is accused of

kidnapping she's done it with seven different boyfriends who didn't buy her what she wanted one of them killed himself okay wow so she's a professional okay so it's very strange that she she comes over she accuses you of kidnapping her but then they decide not to prosecute that but they fed that to the media that you kidnapped someone she fled to the U.S embassy then all of a sudden we learned that they're investigating you and the charges then go from kidnapping to well actually

what he was doing is a lover
boy method which we're
saying is human sex
trafficking and
that these women didn't know
what he what they were
getting into they thought that
he was going to marry them
and actually what he wanted
them to do was just to make
Tick Tock and only fans
videos yeah so the Loverboy
method traditionally the way
it would traditionally work
the reason it was criminalized
added to the criminal code is
that I would be a Romanian
man and I would meet a

Romanian girl we would get married marriage is part of it I'm not married to anybody we'd get married we'd move to a richer country you go from a poor country to a rich country let's say America you put the girl into sexual work let's say prostitution and then I'll keep all the money and I'll I'll control her or coerce her by pretending to love her that's what they're saying that's how it traditionally Works they've accused me of using the Loverboy method because baseball was a nice person I was nice that's the

thing that so most people
don't understand what the law
is so ridiculously subjective if
they want to weaponize it and
use it to attack you that's
exactly what they'll do they
can accuse any man of using
the lover boy method if you
send nice messages on a text
message you're like hey baby
how are you so did you did
you did you promise to marry
these women no I didn't
promise to marry anybody
what I had was girls the two
girls who were in the criminal
file asked me how to be
famous on Tick Tock I

told them how to be famous
in Tick Tock and I spoke to
him nicely the entire time
these two women have come
out and made videos
repeatedly saying we're not
victims of anything I don't
know if you've seen them no
okay so you're so just right
back the victims the victims
in the indictment correct have
made videos saying we're not
victims correct I did not know
that that's there it's all over
Twitter in fact on my I think
it's my pinned tweet you can
see the criminal case against
Andrew Tate the two victims

who the decar are accusing
me of using Loverboy method
on have made videos saying
he just told us how to do
social media we're not victims
I've never seen any of them
being aggressive or
rude they've always respected
respected people I forced I
mean inside them no no no no
they gave this statement to the
police the police ignored it
and said they're brainwashed
so they ignore it so now we
have a criminal case where
we have girls who are saying
they're not victims of
anything me telling girls how

to make money on Tick Tock
or not how to make money
because no one makes money
on Tick Tock telling them
how to get famous on Tick
Tock and them saying that I
forced them for money which
doesn't exist there's no money
in the criminal file there's no
transactions there's no
financials nothing the girls
themselves have given
statements in my defense
they're being thrown
away so they can continue
with this case saying that I've
Brainwashed the women so
now we have imagine in court

my brother and I and the two
victims all on the same side
saying nobody's done
anything wrong we're all
friends friends we were
talking about Tick Tock
accounts and then you have
the state with no Witnesses on
its own saying you're victims
and you're bad and you're
going to jail so it seems like
what they're doing then is this
is where the content from 10
years ago is coming into play
where they're saying to even
yeah they're complaining this
now so even though this these
charges are from and I read

the indictment again 2021 we
are but look at what he
said 10 years ago which
somehow confirms what we're
saying we don't have to listen
to these women on August

want you to contextualize this
video that has been
circulating on the internet of
you talking about the lover
boy method so we'll take a
look at that right now sure
you cannot go to work you
having fun so the recruitment
process is the same as the
PHD course you message
them on Instagram the PHD
course is my recruitment
system I don't mention
webcam until after I've had

sex with a girl if you're on
dates and you're trying to
mention it and [__] it just
doesn't work it puts them off

I'd never do that that's
disgusting I'm not a [__] uh
it's just not gonna work you
continue as normal no

mention of webcam you girl
after your girl you do the
PHD test if she passes to PhD
test and she wants to be with
you then you start mentioning
things like yeah but you know
you're always busy you're
always at work you can come
work for me okay so first
question when was this video

taken yeah so this video is from 10 years ago and this is me explaining how having a webcam company is actually a larger video as a whole I'm explaining how having a webcam company can affect your relationships and how it affects your dating life it also explains the fact that one of the girls I was dating at the time was working on webcam at the time and it's explaining my general overall explains my life and how things are affected owning a pornography company

because obviously a lot of women will be put off by that it doesn't explain it doesn't say I'd be very careful I'll answer this question because I'm currently under an investigation right so I'd be very careful I answer it people are trying to chop it up and say that it says I am using uh the Loverboy method to somehow convince women to do things they didn't want to do this is obviously not the case and none of this is in the case file for a reason because it doesn't exist and all these women are upset but

this is simply me explaining
it's actually a dating course I
made a long time ago and I'm
a little bit embarrassed about
it to be honest with you
because it was 10 years ago
and I was talking about
women and dating and things
in a way that I wouldn't talk
about them anymore right so
yeah you look very young in
the video I'm super young and
I'm talking about hey when
you sleep with this girl or you
meet that girl or you meet this
girl on Instagram and I have a
webcam company I don't tell
them I have a webcam

company and I just think all that's kind of crass and it's below me yeah and I don't really like talking about it and it's amazing how things change as you mature and you get older but once again I was a much younger man I think if you were to take any 24 year old and look at the stuff he puts on the internet some of it's going to be stupid and I think if you look at anybody who made things 10 years ago Something's Gonna Be Stupid it's absolutely not really not criminal in any regard there's nothing criminal about it has

no bearing or any interest in the current case but yeah I was talking about how I talk I don't mention I have a webcam business the basic premise of the video was me explaining that I don't mention I have a webcam business ever and that I'm Mr rich and I have this nice car and I go on dates with girls and sometimes when I say I have a webcam business some of them want money and they want to work for me that's the basic premise of it right I I'm glad to hear that you're not proud of the

video and I think that that's one of those things where I say that people don't allow you to grow up from things that you've done or said in the past and this is obviously when you were operating a webcam business you're talking about and that's the whole thing about The Human Experience we're supposed to grow right and we're supposed to make mistakes and we're supposed to learn from them and we're supposed to uh evolve as people and I'm certainly not proud of

the video when I say I'm not
sorry for what I've done I
don't mean it in a I would do
the same things again I don't
mean it that way I mean at the
time I was a lot less
knowledgeable and I was
younger and I made some
mistakes and just like I'm sure
Jay-Z would never crack sell
crack again right exactly the
same reason I would never
make a stupid video saying
something so stupid again I
also could have never never
predicted the fact that I was
going to become one of the
most famous people on the

planet right I didn't see that coming and if I did I would have been a lot more careful with what I said and how I said it and I do think that it's part of every person's journey to make some mistakes and learn from them and grow them and I kind of find it interesting that if I was a reformed drug addict there'd be no problem if I was a reformed murderer there'd be no problem if I was a Mafia Boss and I'd sit here and I'd kill three people and we were doing an interview and I was like yeah I used to kill people

I've done my time I'm out of jail now that I get less Flack than if I made a video talk about dating when I used to have a business that did webcam that I currently get you know so all I can do is understand that I was a younger man I did the best I could at the time and uh I was trying my very best to survive in a very harsh world and I I understand now that a lot of the way I said things I certainly shouldn't have said them that way but none of it is Criminal right and it again has no bearing on your case today

but there's literally no bearing
and it's conflation it's being
circulated without like people
think that video was shot last
week correct and that's what's
so good because it's good to
mention that because people
are trying to conflate them
because in the current case
against me there's no case
everybody understands there's
no case we're now in a
situation where if the legal
system is completely fair then
the case is over so what
they're trying to do is they're
going to conflate with old
videos of mine and they're

going to
try and muddy the waters and
Gaslight and I will say that I
am unhappy those videos
exist and I will say I wish I
never made them but I won't
say that I'm sorry because at
the time I did the best I knew
how to do I think I think that's
important for the Young kids
that are following you
especially the young men to
know like I say I always hope
that they I talk about the
mistakes that I made and I
probably wouldn't even
categorize them as mistakes
it's just things that I did and I

if I could go back of course I
wouldn't do it hindsight's
2020 but it's important for
them to hear that I'm not
proud of that obviously I'm
not completing it and that's
why I never push them to the
world and
that's why I never you know
propagate them in any way
unfortunately there's a
weaponized attack against me
where they still exist and
that's why I do so so good to
talk against them I think that
if you have a if you want to
tell kids not to do drugs you
usually have a reformed drug

addict to stand up and say
don't do drugs I was a drug
addict it was a mistake and I
think that gives you a degree
of credibility so for me to sit
here and say be a lot more
careful one with the way you
say things on the internet
especially two be a lot more
careful with your interactions
with women as a whole
especially in light of the
metoo movement all these
other things be very respectful
this video this is a small
clip if you watched a video in
its entirety I actually talk
about extensively about how

you don't want to get make a woman feel pressured you don't want to pick up a rape charge for no reason if she feels upset or sad make sure you get her a taxi home I talk about all these things in the same video so this is still the worst part of a very long form video taken out of context however I just think there's a lot of lessons to be learned from it and yeah if I have to be slightly embarrassed and a little bit taken aback by them so I can teach people the lessons and I'm going to teach people the lessons and the

basic premise is I was explaining how I have a webcam company and how it affects my romantic life and that was how it was all encompassing and went together and I think when I made the video I got like 28 views yeah and now it's being circulated and now it's being circulated and I'm being told I'm the worst person in the world by people who pretended they'd never done anything wrong for the last 10 years and also there has to be a degree of time I like to think there's a statute of limitations

like how long are you going to hold them for the rest of your career I'm sure they will and it's fine and that's fine but I mean it's just like okay 10 years ago 10 years a decade yeah they're going to keep making you answer for it in every capacity I've seen that in God forbid you misspeak you miss a word while you're saying something they will circulate it over and over again that's just the world of social media for me what I feel is I don't feel guilty about them but I do feel embarrassed because I

don't feel like the way I spoke
about women or the way I
spoke about romantic
relationships is my current
view on romantic
relationships I think I've
certainly matured I was a
young Brash arrogant Guy
this is what happens when
you have a young kickboxer
who's beating everyone up
making a bunch of money
from the streets I was a young
Brash arrogant guy and I
spoke in a way I perhaps
shouldn't have spoke and I'm
sure if Jay-Z makes a song
today he won't speak about

women and
crack and drugs the way he
used to speak about women
and cracking drugs it's just the
reality of life and you have to
grow and you have to take the
embarrassment which comes
from growing so I will
certainly sit here and make
sure I think the whole world
understands that that's not my
message that's not why I'm
teaching young boys today
the Young boys who are
following me today I have no
interest in these videos and
don't watch these videos
unless they're pushed by

haters and I think that overall
I'm a net positive for the
world I think that men being
so disenfranchised is I want to
say something quickly about
the British school system the
English school system has
attacked me now
they're trying to put me
they've spent billions of
dollars trying to remove me
from schools because young
boys were running around
saying what color is your
Bugatti and repeat repeating
my sayings I don't think I can
really truly be held
responsible for the fact that

young boys repeat a saying
especially one that's not
particularly aggressive I think
that shows that the young
boys are looking for a hero
and someone to look up to
and I feel like I'm feeling a
gap and that's why I
understand it's so important I
say very good things and
teach very good things and I
don't think I would have
learned so much good if I
hadn't been involved to a
degree with the dark and the
bad I
don't think there is light
without dark a lot of my

lessons and a lot of the
messages I give to the world
come from the fact that I grew
up in one of the worst areas of
the Western World
surrounded by drug dealers
surrounded by real pimps
doing real bad things
surrounded by Broken homes
I learned all these lessons and
if I had never had those
experiences and ever grew up
in that scenario how could I
be a person who's now
teaching young men
disenfranchised young men
the realities of the world how
could I we talked earlier about

having a sheltered life a
sheltered life doesn't allow
you to be the kind of man
who can teach so yeah I spoke
in a way I shouldn't have
spoke yeah I regret the video
completely
have I ever heard anybody
know has any of the girls
know who are being
mentioned in that video come
forward with anything other
than defense of Me no nobody
was actually hurt it was just
very Brash very arrogant very
bad delivery which I regret I
can tell you something right
now if love with you as a

human being if I had to watch
Clips with me 10 years 10 11
years ago I would be so I
would write even the black
girl go red I couldn't I couldn't
even look I wouldn't want my
husband to see it so I feel
you're embarrassment and this
is why a part of me when I
was when they were
regurgiting was because I was
like this is so unfair it's so
unfair to yeah to say I'm upset
and by and large the stuff
that you're saying to young
men even if there are certain
things to agree with although
I found it interesting that you

said that peacocking is natural
with men because I think
you're right now that you say
it I'm just a woman I don't
understand it um but by and
large the stuff that you're
saying today is not that and so
I just I think it's really you got
to be really careful if you're
convicting somebody and
who they were a decade ago
completely and it's reformed
drug addicts that will tell you
not to do drugs and it's
reformed alcoholics alcohol
and I lived a life I'm not
gonna sit here and try and I
think part of the reason

actually and it is part of my
image you know top G is the
name

for any of the adults who are
watching it top G is what they
call me my nickname but part
of it is the fact that I grew up
in a bad area you know I can
fight I have this money I'm in
this big compound in

Romania with armed guards
and there's that that degree of
it there's that nastiness and
there's that rough to the edge
which makes my message so
interesting for the young boys
to watch but that's because I
came from a very rough life

and yeah all I can do is apologize for the delivery but I will not apologize for trying to do the best I could at the time in the scenario growing up completely and I think that that's one of the things that sucks about being a public figure is every single moment that people looking at it under a microscope and I always say I want to give people permission I always say I took the most liberal route to conservatism that there ever was and so I just not so quick to judge people and also I like to think and

this is one of the things I do
say if if the most advanced
forensic detectives on the
planet with years of effort if
the worst they can drag up is
me talking about women in a
slightly derogatory way I'm
kind of happy with that I'll be
honest because I scroll

Twitter and I see all these
liberals who attack people all
day end up getting ousted for
child porn or this or that real
things and I'm like thank God

I have no skeletons for real
you know so

that's the worst version of me
that anybody's ever gonna see

and it was a long time ago and
I learned my lessons from it
and uh I do my very best to
teach the lessons I learned just
like you said to help people
avoid going through the
hardest way to possibly learn
a lesson and that's that's the
reality of it but that has no
bearing on my current case
and I think that's what the
confusion with my case is
currently people think that my
case has something to do with
that even though they're
completely unrelated events
right and that's why I'm trying
to clarify and talking to you

because I've realized that
there's a lot of conflating
going on um and a lot of it is
because America I I feel is
just now being
sort of introduced to you
whereas in the UK you've
been around for a while and
there was one and I'm only
familiar with your UK brand
because of my husband so I I
know that you've been big in
the UK circuit for a very long
time and there was an old
video that surfaced of you
spanking a woman with a belt
tell me you love me you
message one other guy again

this obviously has made it
through the UK media for
years and I know I know what
that is based on my
understanding of what
happened with big brother
when you were on Big
Brother but Americans are
just seeing this video in a long
Montage of awful Andrew
Tate videos so I want you to
explain to them what that was
and again this
is another example of when
the woman has already
spoken out and clarified that
this was not her being abused
but absolutely yeah the

woman's already come forward instantly after the video she came forward and made a video and said look this is between me and Andrew and his he never hurt me and I love him very much and this is something that personal happened in the bedroom hello everyone um I just wanted to say something about the video that's been released recently about me and my ex-boyfriend ninja Tate Andrew isma still great friend what you guys saw on the video it's just what we used to do it was just pure

game he's a great guy he
would never hurt anyone
unless he's
fighting and um I just wanted
to let you know that this is a
huge misunderstanding
because I heard he got kicked
out from the house because of
it which I found very unfair
because it was just pure game
it's just what we used to do
and it's actually interesting
because when I got arrested
even recently even though me
and her alone no longer
together she was also doing
videos of my defense she
made a very recent video a

few months ago saying once
again very nice things about
me he is not a human
trafficker he would never rape
anybody and he would
certainly never ever human
traffic anyone either including
his brother they would never
do such thing I am just so
shocked and I'm so fed up
with all of these lies and
you're right about public life
having your dirty laundry or
your life thrown out there to
the world is kind of
interesting and it's interesting
how fast people throw stones
because I know how clean my

life is compared to most
people's lives and I know that
just from conversations I've
had at dinner tables I know
from just dinner table
conversations you talked
earlier about dinner table
conversation people have and
couples Etc I've been sitting
around in very private rooms
with very rich people and I've
been in very important places
and also some very low places
and I've heard people talk and
I'm like if your life was on
display like my
life was on display it would
be a real circus I mean

imagine you could be the son
of a president imagine if their
life was on display and you
could find out some really
interesting things so me
personally yeah these things
are the same old regurgitating
things from 10 years ago
they've been previously
explained that was also I was
going to say can you date that
video when that video I must
have been how old was I in
2015 maybe 2014 okay a long
time ago right and I think the
best defense for all of these
things personally I don't think
that anybody should take my

word for it I think the best
defense for all of these things
are the voices of the woman
directly involved right we say
believe all women
right that's what we say isn't it
okay well you don't have to
listen to a word I say or
believe a word I say if you
think I've done something
wrong to a woman and the
woman stands up and goes no
I love him that's garbage the
next should be the end of the
issue I believe maybe I'm
getting libertarian again but
um no I mean I very much
agree with it and this kind of

gets into um gosh what is the
name of the guy in
Hollywood that he just went
under me too and uh hammer
or something yeah Army
Hammer right and this is
another person I defended on
my show he's in consensual
relationships hey BDSM was
his thing he was very clear
but it was his thing the girls
were okay with it
maybe maybe because he was
a Hollywood star but he never
lied he never coerced he never
confused and then suddenly
one of these women decides
to speak out against him now

they've just cleared him of all charges and I sort of have the perspective that if they were doing this in a consensual relationship respective irrespective of how I might examine it and say I would never do this in a consensual relationship you can't then turn him into a rapist well this is the thing I don't think many people understand especially the men who are vilifying me and attacking me and anyone who's upset by me understand that first they come for me and then they're gonna come for you they come for

any man that they don't like
and the way they do it is this
is the way weapon they sit
and go okay let's take some
kind of sexual crime because
it's heinous and it damages
their name and then because
it's subjective right you say
rape you're right rape
traditionally was grab a
woman off the street and hurt
her well he didn't do that but
he did have a consensual
relationship for years and then
now his girlfriend can be
convinced to turn on him for a
paycheck because the the
media will hype her up make

her famous and pay her a
wage now he's a rapist or
even by create more crazy
extension let's look at the
Loverboy method we have a
man here who has spoken to a
woman in a very nice polite
kind way has
never even had a BDC SM
relationship there hasn't her or
hasn't hit or only spoke to her
nicely she is saying he is nice
she is saying he did nothing
okay she's brainwashed and
he used Loverboy you can't
even be nice anymore you
can't even be if the
government want to put you

in jail for sexual crime you
can be a man with a woman
speak to her with absolute
respect she can love you with
all her heart and say he has
never hurt me and you are
still a criminal right right
think of that think of the
mind-bending it's crazy as a
man you're not safe you're not
safe if they want to get you
they're going to get you and
they're going to use this
Avenue because this is the
most heinous
possible crime you can be
accused of the process itself is
the punishment let's look at

what's happened to me all those months of Investigation during all those months of Investigation there are pages and pages of files everything I did everywhere I went they were looking for me to break a law I don't break laws if I had even sped in a car if I had littered am I done anything it'd all be in the case File so there's they're spying on my entire life trying to find a crime they can't find one then they go through my entire personal life which is now all over the Internet we get all over the Internet so you go

through the embarrassment
then they seize all your
money 15 million dollars are
taken up my
money then I went to jail for
three months now I'm on
house arrest by the time I'm
found innocent I've been
punished the whole the
process is the punishment the
process is the embarrassment
the process is teaching you a
lesson so it's not even about
innocent and guilty I don't
think most people at home
understand that if they want to
hurt you if you get to a level
of influence where powerful

people go you we have to
damage this guy's name we're
going to accuse him of sexual
crime it doesn't matter if you
can prove yourself innocent
three years from the point
they accuse you because
you've already been wrecked
that's the entire goal of it right
so now we're living here I'm
sitting here as a
person who's accused of a
crime the victims are on my
side there's no one against me
but the state I've done nothing
wrong there's these Twitter
detectives Twitter internet
detectives who know whose

funds them trying their very best to prove me guilty for no reason by taking old videos and conflating the issue and trying to make it complicate when it doesn't need to be and I just sit here and think they are complicating the issue I very much agree with you on that I think that the goal of digging up these old videos was to say well this somehow legitimatizes the case against in Romania and that's just not true right you can say you even said it you're not proud of these videos you can and say I think

Andrew Tate is immoral I think the things that he said here are not principle they're trying to say that because of things you said 10 years ago you shouldn't have a question young men today it's just too much conflation I made a pro I made pro atheist videos back then and I'm very embarrassed of those right I'm extremely embarrassed of the videos I would sit and say God is not real in fact I'm more embarrassed of those videos than any other video and I would sit there and now I'm I'm devout to My Religion

so I would sit there and start
try and talk about how God
wasn't real and I thought I
was smart and now I watch it
and think I was an idiot and I
like to think of myself as a
pretty wise person I
wouldn't have a platform if I
wasn't wise and I'm 36 years
old but at 25 I was a dummy
and I think that any 36 year
old if you were to ask him
were you a dumbass 25 I feel
like young men especially
take a little longer to
completely for testosterone I
was making money out of
Lambos fight animals beating

everyone to pieces I had a few
hot girlfriends I thought I was
Mr Hotshot yeah like is that
the worst thing in the world
like who who is it right so
yeah it's it's very interesting
that they're going to attack me
with these forever and that's
fine I do believe however that
Allah is the best of planners
and I am in many ways I
wouldn't say happy but I feel
like this whole criminal
investigation is going to
be a fantastic end to all of this
once I'm found innocent I
believe and I do believe I'll be
found innocent I've seen all of

the case against me and there
is no case and it's very
difficult to put somebody in
jail when there's nobody
saying he did anything wrong
for people at home who are
confused about my criminal
case just so they understand
I'll explain it one more time
two girls in April who visited
Romania for five days
wanting money for shopping
didn't get it accused us of
kidnapping them these are
girls who've accused seven
other men of kidnapping slash
human trafficking Romanian
authorities turn up and within

an hour said they weren't
kidnapped this is stupid and
threw it away
then they picked up this case
for some reason by some
recommendation later on
down the line come up with
this whole lover boy garbage
the two girls there's four girls
in the case two of the girls
who were accused of who I
supposedly lover Boyd are on
my side we have the two
initial girls who said that they
were kidnapped who how are
on CCTV walking in and out
of the house as much as they
want and She's accused seven

other men of kidnapping that's the case against me so I have enough faith and Justice that it's all going to be put away pretty quickly but um yeah I wish those old videos didn't exist but much more than those I'm far more embarrassed about old videos I made that were anti-god I feel genuinely bad about those much worse than that so it's just like I'm not what you're selling to kids today absolutely not I'm doing the absolute opposite I'm trying to push children towards religion I'm trying to

push kids towards God and it's amazing that I it's amazing that I'm being attacked with these videos I'm embarrassed by them that's fine but I'm glad my atheistic videos didn't appear I'd be far more embarrassed I'd feel genuinely shameful to watch those but you know we're human and we make mistakes and all we can do is grow like you said trust me I went through the conservative ringer too the suddenly all sorts of things I mean they hit me with uh old anti-bullying company that I was trying

to put together based on something that I lived through when I was in high school and they tried to say essentially that I was trying to dox people I still have to answer for a splash page for an anti-bullying company that I tried to create with the most goodness in my heart and they still throw it at me she's a fraud this is not what she actually thinks I mean I have to answer the conspiracy some things are even crazy that George is some George's father or somehow related to the Rothschild and I mean it

gets crazy and the bigger that
you the bigger your platform
becomes the more they dig
into your history and they'll
dig into ex-boyfriends I mean
it never goes away but I I'm
hardened to the process us I
am

who I am I'm proud I actually
am proud of a lot of the things
that I lived through a lot of
the mistakes that I've made
because it made me who I am
today it's interesting you say
hardened to the process
because I think I am too
because when I watch old
content or mine or things I

wish I didn't do or say I will
feel guilty or awful shameful
or I'll feel embarrassment
because of me I don't care
what people think I don't care
if some conservative wants to
watch a video and make a
video that I don't I don't care
it's about me and my own
personal morals and my own
personal morality and how it's
evolved and how I feel about
things I've done it's all about
me it's internalized I don't
care what

these people say externally
because I know that nobody's
perfect and I also stick by this

and I've said it many times
but I know absolutely not live
to be true anybody who is
attacking me if they've been
under the level of forensic
assault I've been under would
have far worse things out
there in the public right sure
right and I know that that one
of the charges against you is
that you're materialistic you're
describing that as peacocking
and it's funny when I see you
with Lamborghinis or
whatever I don't know
anything about cars whatever
the cars are I always think of
I'm friends with a lot of UFC

fighters and and one of the
ones that I have great respect
for is Colby Covington oh
yeah and it's so

funny because I have my
podcast he's sort of this quiet
guy super respectful just not
at all what you're getting in
the ring and when we talked
about that he said no one pay
attention to my fights and
then suddenly I'm in Brazil I
think I'm about to get dropped
and I start talking a bunch of
trash and suddenly he's got a
huge audience behind him
and this is part of the the men
like the bragging the Ben like

the peacocking completely
um and so I love it and that's
why I say when I see some of
these videos and I see
conservatives assigning like
real meaning to you saying
stuff that is just so obviously
content for young boys the
only way I can describe it
because it's just like a bunch
of guys just being
guys and the girl's respect this
is so stupid that's my reaction
it's so stupid but I'm why are
we trying to assign real
meetings this is how guys
have fun the same way that
girls sit around and talk about

Real Housewives yeah
absolutely it's bravado it's just
it's girls are into my husband
cannot do like five seconds of
hearing me and my girlfriends
talk about things he's like I'm
out yep and this is what
woman Jimenez guys are
together and he's like they're
fishing and the first catch you
gotta bite the head I'm like
that is so stupid so ridiculous
why do you are you biting a
head off of a fish but it's just
boys being boys and girls
being girls completely and so
I think that people should not
assign

like I mean I've seen really
stupid videos of you and
they're trying to really assess
these videos as if this is like
I'm like this is just posting
well yeah they're taking it
now you see Colby he's got
these hot girls in bikinis he's
behind cars on his thing and I
think it's hilarious and I think
it's funny because it's I get it
it's for it's not for me and
that's not for me and that's the
thing actually which a lot of
conservatives and the
conservative movement don't
understand is that by
attacking somebody for

having a little bit of fun or for
being Bravada for having
some bravado or saying
something audacious or
having a nice car whatever
Bugatti whatever yeah if
you're gonna attack people for
that you're just gonna drive
young boys away from your
message you need the Youth
of a message for the message
to exist and survive if you're
going to just be Mr boring
and be upset by everything
then nobody's gonna have any
affiliation with it I really do
believe the reason liberals
owned the culture for so long

is because liberalism overall it looks it's not because when you become spiritual you understand that it destroys your soul but it looks fun it does look fun it looks fun because there's no rules and you can do a bunch of dumb stuff you can take drugs you can run around go to orgies and watch porn and sleep with all these degenerate women and they're all promiscuous and it's a big party it looks fun and

we talk about culture and how important it is to live win the culture okay well then I come

along and I'm largely
conservative-minded and I
have this massive fan base
and then you're gonna attack
me into Andrew as a car that's
bad well they're like is that
the fight you want is that how
you're going to win this
culture War very much
separate myself from the
conservatives that do that I'm
like this is on my show I'll
show clip I'm like I can't
believe this is even being
passed around as something
that should be taken seriously
it's so stupid it's so ridiculous
it's so obviously content for

guys this is what I imagine if
my husband left to his own
devices and he's around all of
his Lads in the UK I mean
the subject was just so stupid
but then he thinks the same
thing about me when I'm with
all my girls it's so stupid
completely and we do need to
stop being so severe okay it's
materialism okay we get all I
get what you're trying to say
but also this is just fun
content for guys but then let's
also talk about the
materialism thing right
because it's interesting to me
that can services will sit and

say all materialism is bad or
it's anti-christian Etc and I
understand where there might
be a point to argue there but I
tell you something if you're
completely and utterly broke
then you need the government
to eat then you're in a lot of
trouble we talk about the
Matrix and resist in The
Matrix one of the tools to
doing that is
Financial Freedom and this is
one of the Baseline realities of
it I'm not saying you should
sell your soul for money
absolutely not really not but if
you want to truly resist the

Matrix as a whole you need to have money to do it it's pretty hard to do when you're broke even me as a person if I had no money the current situation I'm in would absolutely not really destroy me I would be completely and utterly wrecked like how could I pay my bills I've taken 15 million dollars of my money I'm locked in my house so you need to have a degree of Financial Freedom otherwise you're going to end up just doing what you have to do to eat you look at these people in England there was a

video that recently was on Twitter I felt really sad when I saw it it was a Workman taking down the British flag and putting up the pride flag and someone shouted at him hey bro you're moving you're removing the wrong flag and he goes I know mate I know you're taking the wrong flag down mate at least you know that but he had to pay the bills he has to feed his family what can he do he's a flag hole he's a flag hanger all he can do is hang the flags if he doesn't do it someone else will do it he

loses his job so if you're
completely and utterly reliant
on a wage or you have no
money well now you have a
new tool of enslavement
covid was all based around
that oh I just gotta go to work
I just get the
injection ah I Gotta Wear the
Mask I gotta fly I gotta work
gotta work I'll work it takes a
lot of money to sit down and
say no I'm too principled that
takes money to do so it's also
interesting the conservatives
want to attack materialism
okay perhaps I didn't have to
buy a fancy car you can get

upset about that if you like
but if you're not financially
free it's also pretty difficult to
stand up and tell the truth
even if you make a lot of
money if you're reliant on let's
say a sports team for a
contract even if you make a
lot of money if you don't have
enough saved you can't tell
the truth even if you're rich
they're all still complying and
bending because they have a
contract they're adhering to
it's

difficult so I don't think that if
you had somebody who was
trying to inspire the masculine

Youth Of Tomorrow to resist the slave mind teaching them to be financially free would be a bad thing I think it would actually be a good thing I think men need it because they think view it as aspirational and no one escapes it I would definitely not describe my husband as materialistic at all he likes cars there's just something about cars that men like my son truck truck carp it's like it's psychotic I mean it's such a boy every time he sees a truck a Car Any car that looks cool he's two yeah he's two so

there is something ingrained
in men that completely his
first word was truck you
know every time a garbage
truck goes by anything he's
just like a school bus men like
that for whatever boys like
that men like that it's us I
don't think we need to
overthink it yeah absolutely
it's aspirational but also so if
we're going to actually look at
the meta point I believe that
teaching Financial Freedom I
think teaching Financial
Freedom is one of the very
important ways you teach
people to resist a slave mind I

don't think you can resist the
slave mind if you're
completely nutty broke on
welfare or living paycheck to
paycheck for a large Corp
which is insistent on trying to
install the slave programming
inside of your head I think it's
very very difficult I actually
think Financial Freedom is a
key component to it and I
think

that me standing up and
showing a life that costs 50
million dollars a year or
something ridiculous doing
that on purpose and trying to
inspire men to make as much

money as possible is actually a very key component to the resistance of the slave mind I don't think many people understand this because if you teach young men how to go out there and become rich as possible it's very difficult they can do that without learning some degree of mental fortitude without learning how to speak to people without learning how to network without learning how to be competent and disciplined and motivated and work hard and then they do all that they have enough

money so that when someone comes along and says take this injection they'll say no I don't want to take the injection I'd rather miss the flight so there is a key component of resistance without which actually involves materialism I'll argue that if I was exactly the same person with the same viewpoints but I was completely hardly flat broke I wouldn't be able to make the same impact on the world and I wouldn't be able to resist the programming the same because I need to eat food so

I'd actually count or argue any
conservative who's
complaining about my
beautiful car collection of 42
not one 42 nice cars that
having a lot of money is
actually an important way to
resist the Matrix I can only
talk from
personal experience but the
number of times especially
during covert for example
where I managed to not have
to comply with neither laws
simply because I was loaded
it was I can't even name one
like 10 hands so materialism
is important I think we should

be teaching especially the young boys especially people who understand who want to live in a very rational World want to live in a world which is based on common sense and dignity and honor and respect and all the things we're trying to teach through conservatism is that if they don't have a degree of financial stability or financial Independence they're going to end up getting wrecked anyway they're going to work for woke Corp and woke Corp is going to change its Twitter

picture or X picture whatever
it's called now to a pride flag
and they're going to be
screwed anyway so you have
to be teaching to a degree
Financial Independence I
don't know why that scene is
a bad thing I'd actually really
like to argue that point with
who was complaining about
my car one of my 42 cars I
think it was a packaged you
know this video and kind of
showing that you're not
actually good for young men
and they wonder why and
they wonder why they lose
the culture War imagine

sitting there telling young
men don't have a nice car like
him don't be fun like him
don't do that like what plan
are you people on no one
doesn't have a
sense of humor like I think
Colby Covington's Instagram
is hilarious completely I know
this is not how he lives like
we first off to be an MMA
fighter his whole life is Diet
extra I mean he's feeding his
body every day he doesn't
really have time to be going
to the strip club and you know
but I I get the brand I think it's
hysterical he's actually a

really wonderful human being
and I'm I'm happy that I'm not
so serious that I don't see the
humor in this and that and
boys love it they do they do
love it it's and I wonder if
these people really don't see
the humor or if they're just so
desperate to find an attack
Vector that's going to get
upset I think that's a good
question I think but I will
actually I want to get to what
your belief in is in terms of
when you start talking about
the Matrix because I will say I
some of the people that have
been going after you Liz

wheeler obviously has been one of them um Liz wheeler hasn't wanted I think you blocked her um Ali stuck he has talked a lot about it I know these young women they're not a part of the Matrix okay I have a lot of disagreements with them stylistically we have disagreements Ali's a is a means what she says even if I disagree with her point I know she means she said it's not an act for her she's not trying to do anything she says it because she believes it and learn for a year she's actually

been very good to me when
people were very the the
guard of conservatism Ali had
me on her show she had a
platform for me Liz genuinely
believes everything that she's
saying I don't think she's a
part of the Matrix even if I
think that there are some
pieces of it of your life and
why people gravitate towards
you that she doesn't fully
understand and maybe she
never will understand it but
they to me are not a part of
the Matrix okay so so let's
talk about what the Matrix is
and what the Matrix isn't sure

let's talk about the Matrix
before we that before we do
that let's talk about this recent
conservative attack I want to
make it clear that I don't
watch basically any of the
attack videos made on me I'm
I'm busy and I'm very happy
with my life and I don't
allow attacks on my psyche if
somebody makes a video that
attacks me I don't watch it I
don't watch it because I don't
want to watch it because I
don't care I don't watch him
either I don't care and I don't
say this to insult Liz or
anyone else I don't know them

enough or respect them
enough to give what they
made or what they say I don't
care so I can't talk about the
specifics of what she said
because I don't know what she
said because I didn't watch it
however I don't believe it was
well intentioned I think that
there is certainly a degree of
jealousy that came with my
massive influence in the
number of views I've gotten
the Tucker Carlson show I
think the fact that 10 year old
videos which
have been debunked 30 times
are now coming up again is

not well intentioned at all but
I can't be entirely sure of that
so I can't comment
specifically on their attacks
because I haven't watched
their attacks I don't I think
they're seeing those videos for
the first time that's why I said
I'm trying to bridge the gap
between I ain't only about
those videos for a long time
because I've been paying
attention to your UK career I
don't believe these people
have been I think the first
time they were introduced to
you was on Tucker Carlson's
interview if I'm guessing I

have not spoken to them but
I'm so they're just seeing this
then somebody starts
circulating old clips and they
are like oh my God this
person this
must be true again guessing
have not spoken to them
about you at all got it well it's
up to them to come to their
own conclusions about me I'll
live my life and I'll continue
to live my fantastic life and
I'll be the best person I can be
and they can come to their
own conclusions they can
make videos in support of me
or attacking me for the rest of

human time I'm not gonna
watch any of it I'm not
interested so that's those two
but um in regards to the
Matrix as a whole The Matrix
I believe and I use the term
The Matrix from the movie
because I think it perfectly
describes the world we're in
today I believe we're living in
a false reality which is
projected inside of our minds
and it's designed to distract us
long
enough for our bodies to be
abused and the movies from
body heat in the real world
perhaps for or some physical

labor but I believe that we're not living in a real version of reality I believe there are Gatekeepers on the truth the agents who try their very best to keep us asleep and I think the end goal is to keep us distracted long enough for our body to be utilized and then for us to die who is the Matrix and what is the matrix's all I have to be very careful what I say and I don't want to get in too much trouble but I think anybody who is perspicacious enough to understand how the world Works understands that the media machine is trying

very hard to keep us Convent
to keep us convinced
of certain ideas and also to
keep us arguing about very
unimportant ideas so people
behind the media machine
who decide what goes on the
news can do whatever they
want to do and those the
things they do usually have
dire consequences to all of
our lives so I would say that
the Matrix as a whole is the
media machine from the
projection point of view and
the people who control the
media try very hard to make
sure they have ultimate

control over all governments
and all important decisions on
the planet I agree I totally
agree welcome to the
conspiracy welcome to the
conspiracy the listen to my
podcast I'm in on like CIA
documents showing people
this is not it's not a
conspiracy theory these are
Declassified CIA documents
these are things that they
actually did and that nobody
pays attention to because it
happened 60 years ago but it's
been Declassified you know
all the operations that they
had putting actual journalists

under CIA pay I mean it's crazy following the death of JFK why do they do that why do they suddenly feel it was necessary to have journalists on payroll following the death of a President Who there are a lot of questions surrounding his death so you're You've Got the Right audience with me when in terms of that I think I think the media is the enemy of the American people that is why I I liked Trump calling that out right away talking about fake news what I don't understand is why anybody listens to

anything they say I know it is because they've been caught lying so many times is it just because they lie on repeat over and over again to the point where people just accept it is it because it's cowardice and accepting that these people constantly lie to you makes you adopt a worldview which is scary because you have to not think for yourself I'm not sure what it is but how after especially the last five to six years especially the last five to six years can you believe a word these people say to you well because if

they say it enough it becomes true and that's been they've been able to show that that if you say something over and over again to someone they will accept it as a truth and that was another uh

Declassified CIA experiment was super interesting they put a bunch of people in the room so let's say there's too many people in the room right and 19 of them are agents and one of them is actually the person they're testing and they show you a picture of what is clearly a banana and they go around them the last person

they get to is the one that's the
the experiments on everyone
else is an agent and they say
what is this and the first
person says apple apple is
clearly a banana by the time
they get to that 19th person
who is not an agent that
person just says it's an it's an
apple even though it's clearly
they don't even believe
their own eyes anymore
because they're going okay
well if 18 people in this room
have said that it's an apple
what do you see an apple
apple then they just say apple
so there's a lot of evidence

they do it because it works
and and everything around us
shows you it works we're
right now debating whether or
not you know children can
pick their gender how did we
get here this is this is
something we couldn't even
fathom when we were in high
school that people would be
saying like your little boy
could be a little girl but we're
here today and actual adults
are believing this information
because it's been said enough
times to whatever segment of
the population that they're
accepting it

as true so they do it because
it's been effective and that's
why God is so important
because God is a hard line
that you cannot be crossed
right that's why you will not
be libertarian that's why I'll
not be libertarian not be
libertarian no but if you have
if yeah it's true because if you
have faith then there's Rights
and Wrongs like you said
earlier there's sin and there's
good and there's a line that
can't be crossed and the psyop
is very difficult to penetrate
and that's why in the Islamic
world for example we have

very little of these problems
because it's Haram it's
problem solved or wrong next
but um yeah it's it's it's it's
certainly scary and I don't
think people understand how
evil absolute

power will make a person I
don't think people understand
how Petty and how vindictive
and how degenerate absolute
power will make people I
think there's a degree of
naivete in the population
when you talk about the
Matrix and the people who
are behind the media and they
believe these people might be

powerful people or rich
people well not necessarily
bad people but unfortunately I
don't think they really truly
understand the reality I had a
theory that I was arguing with
somebody with and I keep
using kovic this is a perfect
example of the psyop
everybody who once believed
in covid now no longer
believes mostly all of them
which I find actually
remarkable because
when I talk about covid now
in front of 20 people
everyone's like yeah man that
was garbage but during covid

I couldn't find a single person
who wouldn't wear the mask I
was like oh I'm by myself I
got arrested in Germany I
mean Tristan got arrested sir
out of my math squares
handcuffs I'm like what the
and I guarantee if I was
standing in front of those
people now that I'll be like
yeah kovid was stupid it's
amazing how people want to
flip and forget reality so I use
covid because people were
fully psyops and now they're
not psyopted I'm trying to
wake you people up to
understand something about

how garbage it all is I'm
trying my very best to make
people understand that the
people
who make the news have no
interest in you being informed
why would they make the
news and broadcast it to you
everywhere for you little Mr
Nobody to understand how
the world works why would
they care about you knowing
anything that's important ever
do we not a slave if you if
you're knowledgeable and
that's why I always say go
back to when we had physical
slavery in America a

requirement to maintain that was ensuring that slaves didn't learn how to read that was part of the slave code they weren't allowed to learn how to read if you were caught teaching a Slave how to read you you too as a master would would be fall victim right and that it was so important for them because they know that an educated mind can't be enslaved so the goal of the mainstream media is to keep people stupid and it is why I think that despite the fact that you admittedly say that you

are not a conservative and
despite the fact that I don't
think you're overtly political
none of that really matters I
think what matters now is
what you will do with the
platform that you have
completely impact you will
have completely and inspiring
people to free think and to not
believe all the slave
programming which is told to
them and to not just follow
lockstep with the lies that are
given to them I think in and of
itself makes you a
conservative and to a degree
makes you political

unfortunately now
that's how the Divide exists if
you're teaching people to
think for themselves and be
strong people of agency and
self-respect then you're going
to be on one side of the
political spectrum and if
you're teaching people to be
the absolute opposite you're
gonna be on the other side
and by extension I guess I am
political and I am
conservative just because I'm
telling men to stand up and to
be strong and to think for
themselves and that makes
you resist to slave

programming and I like to believe that the conservatives themselves of resisted slave programming the most um but yeah it's it's a scary world we're allow living in we're things that I'm saying which were basically completely accepted by the entire population 15 years ago or enough to make me the most hated man in the world but isn't that crazy I think the things I'm saying are things that were widely accepted for a very long period of human time I think that things are still widely accepted in most

of the world today I think it's
the decadence of the West
that allow us to pretend these
ideas and these realities don't
exist and I don't know how
long we're going to last under
this false reality I don't know
how long Society can
possibly function with the
insanity that they're trying to
purport on the population of
the West the fact that so many
calories in the Western World
genuine calories from food
and human time is wasted
discussing pronouns and
trying to get somebody's
pronouns correct in a sentence

that they've made up which
change at random think of the
absolute Insanity of that and
how long can a society
actually function with that
degree of decadence and
absolute asinine Behavior I
don't know how long we can
even function anymore I think
the West is in a lot of trouble
and it's almost like especially
certain talking points and I
find myself guilty of it as well
we talk about certain talking
points which are pushed to the
front and I kind of feel like
they are a mass distraction
they have to be because

they're so ridiculous but the problem is people there's a certain percentage of the population that genuinely believe them I would love to live in a world where they try and push the idea that a man is a woman or that a man can change to a woman and then compete in women's sports without an advantage I would love for them to try and push that idea and for everybody to go this is stupid next no but because some people believe we have to now waste our time discussing and debunking the

most obvious hello Warriors
wet good to see here and talk
about the sky being blue for
days and weeks and years
almost at a time talk about the
ultimate distraction tool by
The Matrix for them to sit
there and go you know what
let's come up with some
absolute garbage and let's
throw it to the front and the
smart people will fight against
it but enough dummies will
disagree with it and that'll
keep them distracted while we
do something that matters and
we find my I even myself
falling victim for it because

it's so necessary because a certain subsect of the population is so dumb that they believe it if people were all just a little bit less receptive to display programming everyone would stand up and say no you're gonna try harder than that next and we could discuss something that actually matters and this is the point I was going to say earlier about coven so covid I think a lot of people do not understand how Petty and vindictive power can genuinely make somebody and I had an

argument with a friend of my brother about two or three years ago during coven when you had to wear a mask when you went in the restaurant and then you sat down you took it off and then you ate and you put it back on to go to the toilet you took it off and I said I hope you understand there are someone somewhere some billionaire on a yacht who is doing this as a compliance exercise as a joke I know as a joke and he goes why would you do all that just for a joke because if you're in charge of the entire world and you have

unlimited money what's going
to make you happier Ferrari
you've had Ferraris your
whole life boring all that you
care about is power
compliance it's all funny to
you it's vindictive it's Petty
why not you're
in charge for the same reason
if you're in charge of a big
company you're like you
know I want you all in at 8 45
tomorrow why not it's a
power play ego status respect
all things were talking about
earlier these people are born
into massive influence money
doesn't make them uh feel

powerful they've never
worked for anything in their
lives now they have a little bit
of control over you they're
going to make you do
something so they can laugh
at you I'm telling you it was a
joke I say I say the same thing
I'm like there's no way they're
not just playing like Simon
says to see if we can they can
actually make people abide by
these things and people keep
actually abiding by them
there's no
way that they're not sitting
back laughing it's a joke they
must be laughing because it's

it's so Preposterous and people don't understand that there are people in the world who have power who are literally vindictive enough to just mess with the entire populace for a joke and I don't think people understand when you look at the Matrix as a whole and yeah you talk about the media machine and how it's trying to push these ideas on you and the people behind it the people are behind it do not have any kind of genuine intention their intentions are absolutely not least selfish they want to feel

good and feel powerful no
matter what it takes [Music]
thank you [Music] kind of
evil and scary that these
people have a world view
which is so logically flawed
it's so devoid of genuine
rationale that they have to go
to the most susceptible
subsect of the population to
inject it which is why you
should get married because
the guard against that is
strong families is it it is a
nuclear family it is a mom
and a dad sitting around the
dinner table saying what did
you learn at school say it's

Mom guarding at home going through their homework and seeing what they're learning and saying absolutely not and it's Dad going to work building and that nuclear family is the only guard against handing over your children to the government which is why in the next five years I just think you should get married the only guard except Islam No I don't have to worry about my children's homework thank you very much it's all handled by God and it's interesting you said that though it is a good point

and I think Matt Walsh actually says something about me having uh I have children from a few different women I don't like to give details on it but uh so does Elon Musk and I do think although this may be elitist I will state here that a certain level of Finance is not the same crime as it would be if I was a traditionally financed individual I can afford two or three families and I can afford to see them all and I can afford to go to three countries in a single day on my jet if I need to and I'm a very good

father to all
my children I love them very
much and you're right I
completely agree with you the
nuclear family is the answer
my solution is not the solution
for everyone but the nuclear
family is the answer I
agree with you but uh Islam is
also an answer well I don't
know enough about the
Islamic faith to be able to
counter you on that point but I
do think that having all your
children around the dinner
table brother sister right this is
beautiful it's beautiful of
course I want that for you of

course it's style that's
beautiful as well the

but sorry I I'm not I I have to

we talk about Darwinism I'll
ask you another question
because I'm very interested do
you think abortion is
Darwinism it's an argument
that can be made right killing
off your own offspring it
means that you're you're not
putting your Offspring into
like these people with the sign
yeah I killed 10 of my kids is
isn't that I mean it's evil it's
satanic it shouldn't happen I'm
not saying that it's a good
thing I'm just asking is there a
darwinistic element to all of
this that when I look at that
the Earth will be populated

with conservatives because
their ideas I mean my
husband always says the left
is a death cult if you look at
all of their ideas they lead to
death

right you can't procreate
you're killing off your own
offspring every single one of
their ideas leads to death and
destruction it's unbelievable
so in the end you'd have to
have the perspective that
conservatives went naturally
because we're talking about if
we own the culture yeah but
we don't so what they're doing
is they're they're accusing the

culture to sigh off enough
young children who are not
living a traditionalistic life
like you're saying or not
having a strong family
nuclear family to keep them
against the slave
programming and they're
using them to create the new
generation of death cultists to
continue to keep Humanity
under attack but I don't know
I I really struggle as a person
I try my very best to my
father had a saying which I
use I allow manipulation to
find out where my enemy
wants me to go and then I use

my mind to break the Trap
and punish the perpetrator and
the reason he said that was
because if you don't allow
them to manipulate you you
don't know exactly where
they want you to go if they try
to manipulate you and you
absolutely not only resist you
might end up taking another
path towards the same
destinations you should allow
them to manipulate you watch
the slave programming watch
the propaganda watch all of it
find out what you want then
what they want you to believe
and then you can use your

mind to instantly break the
Trap I did it in covet and
when

I first watched Kovu when I
watched the Italian hospitals
and people falling over in
China at the very very
beginning of it I sat there and
thought what do they want me
to believe they want to be
scared of this disease they
want me to be afraid no I'm
not going to be afraid so if I'm
Not Afraid what's the answer
well the answer is to go to
which country Sweden's open
nobody talks about the fact
that Sweden was open the

whole time never closed ever
I'm interested in nightclubs
the entire time people were
locking their houses nobody
talks about this it's like no one
mentions it anymore but you
have to use your mind to
break the Trap and I feel like
I've tried to allow my mind to
be silked into this
transgender stuff or this
abortion stuff and even I can't
even pretend to buy into it I
can't see how you can reach
that level of delusion and
that's where I say maybe it
must be Darwinism because
maybe even with all of my

mental capacity I can't even pretend to be stupid enough to want to go and chop my genitalia off to then imitate a woman poorly imitate a woman for the rest of my human years that literally sounds like a form of torture that sounds like one of the worst existences ever I feel sorry for anyone who's fallen for that because they're never going to be what they want to be ever it's it's just like the worst possible existence I just can't think of anything possibly worse and I don't know maybe there's a

darwinistic element to all of these things we can just control the culture and make sure that no future children are Psy opt into the death cult maybe it should all fall apart because people who truly are that susceptible me and my brother have a joke in the house there's flies and mosquitoes in the house sometimes every time one of us kills a fly we say you've improved the gene pool because the slow one got killed the fast one he doesn't get killed so the fast One's Gonna be here forever I want

to think about that every time
I kill a flyer if you kill a fly
you're helping them get
quicker if you didn't if we
didn't kill flies all these
millions of years they would
never be so

elusive I don't know maybe if
there's a darwinistic maybe
I'm just trying to feel better
about this yeah maybe there's
they're they're so evil they've
decided we're going to kill off
all of the people that are
stupid I I don't know and then
we'll be left with just strong
independent but then they
can't control the strong

independent people so then
you kind of you got you got a
bit of a problem there I've got
another question for you how
polarized do you think the
world is do you think there's
two teams do you think
globalists control everything
do you think there's three or
four teams what do you think
about that I think it's probably
now divided into two teams
yeah yeah because now you
have to find more in
common it's like how crazy
are you we may have been
divided into four five six but
now it's like do you believe

that children should chop it
off right or yes yes or no
Circle yes or no yeah right
that's where we're at because
you have to be so far deluded
to believe this and if you're
just in some realm of Sanity
we probably have enough in
common that we should fight
together right just because
like they're going out for the
kids no it's like and I think
that is really where we got
divided into two categories
where it's like you're either
Pro going after the children or
you're against going out for
the children and it's

remarkable how many people
are pro letting them go after
the children it's it's it's kind of
scary but that's where I think
it's now pretty much two
camps it used to be more I
think so also and then within
new obviously there's little
battles and and to me they're
Meeting Lists I think maybe
I'm saying that because I'm a
mom and now so there's
nothing more important to me
than protecting children and
worrying about what my
children are going to face I'm
going to be the crazy mom
when my kids are at school I

will be there every single day
looking over every amazing
every assignment amazing
leaning fully into the feminine
role of like yeah so I but I do
think now it's come down to
two camps it's crazy and not
crazy I wonder what the
future of the world is Candice
I feel like I know
everything and I talk like I
know everything but I'm
actually starting to think
things are getting your dad
might have had an idea yeah I
wish he was still around but
things are starting to get very
very strange and yeah and I I

guess also when we're talking about me my libertarianism versus conservatism I never like I would never allow my child to be aboard ever I do think it's heinous and disgusting but I will be honest with you when I see people trying that hard to kill their kids I'm kind of like I'm not gonna lie I maybe that's the libertarianism In Me Maybe I don't know but I'm just like there's got to be a darwinistic element to some of these things I don't think they should happen I would love to stop

them all I believe that all life
is precious I think it's heinous

I don't think that anyone
should chop off any of their
body parts either but it does
get to a point where it's just
like if you're that desperate to
damage your own life and
damage yourself am I the
person who's gonna fight for
you I don't know police
women are broken and they're
brainwashed and I like to
think that if they hear the
right message something in
the same way that I think a lot
of broken men heard you say
something and it woke

something up inside of them
true I think that they can land
on my message and they can
hear it and go wait a second
that thing that was killed
inside of me systematically
from the school
system and made me think
that what it meant to be a
woman was to be a [__]
because that's kind of the
message that's going out right
now 100 to be a [__] and
hate children which is the
opposite of what it means to
be a woman then when they
hear something and I talk
about how aspirational family

is and something is or how
much I love being a mother
and and then I think inside of
them this something spiritual
happens or they go wait a
second I think that's actually
what I am I've been
conditioned to believe I'm this
but actually this is what I am
so I'm I'm more hopeful that
the more that we have better
pillars in society that we have
people speaking out on the
opposite messaging that
Hollywood is
bringing on the on the glory
of being a woman on the
beautiful of the beginning

gang on that submission in a marriage is not a bad thing actually it's a beautiful thing I agree and these messages have been perverted that where we make a difference and I think we we know we're winning no we are now they want censorship now they want the people taking off the internet now they want this person to go down and that they weren't doing that when they were winning they didn't care we were allowed everybody was allowed to have a platform when Obama was President completely true

we are winning and I just think it's an unfortunate of the human condition that people don't really like to learn lessons the easy way they have to learn them the very hard way and it's very difficult for us to sometimes sit and tell people the truth and even and they just don't want to learn it until it's too late I like to think that these women who hold up these I lost 10 babies I killed 10 baby signs will one day wake up and feel very sad about what they've done and they will do and it's possible and it's

possible and I think even time
will show them God will
show them with time I don't
know how I'd talk someone
out of the transgender
argument like how would you
convince someone who is 100
certain they want to mutilate
their body to not mutilate
their body I don't that's a
scary one to me
because their mind and that's
also one that you can't really
undo which I think is sad
which is why the suicide rates
go up after transitioning I
think is once you do it you've
committed but I've seen I've

sat down with a man that did that had the full surgery his name is Walt heyer and he's is dedicated the rest of his life to waking up other uh that's the most noble thing you can do yeah he's like you know this is what I did this is how I was convinced it's how I was brainwashed this is what happened to me I was actually just molested when I was a kid and I just wanted to get rid of my identity in any capacity so I did the most extreme thing that I could possibly do I platform those individuals and I

think that he's he runs a not-for-profit now which you know sex change regret there's many people that are like him out there and yeah it's gonna take God it's going to take spiritualism and it's going to take repurposing your entire life after you do something that extreme hopefully just us having this conversation prevents people from making those sorts of very serious decisions and you know but this is why YouTube will try to censor this conversation okay I mean that's the whole point is my

face my face is on it you're in
trouble so I'm gonna ask you
a few more questions if you
don't mind my face is troubled
too I would just like to State
yeah of course of course it is
why do you think
marriage has reduced in the
Western World why do you
think less people are getting
married than before
conditioning it's all about
social conditioning and it's
about uh the feminist
messaging going back to our
conversation about the
matriarchy they've totally
conditioned women to believe

that marriage is a trap that
you are going to be unhappy
that you are going to be
sacrificing your freedom
when in reality I got more
freedom than I ever had when
I became married because I
finally became a secure
woman I knew what my
purpose in life was when I
had children everything else
is so stupid and meaningless
how could you think you were
going to find your purpose in
the bottom of a

Red Bull vodka at one Oak
canvas you know what I mean
how could you think that well

because that's what that's what
Hollywood told me that's
what I saw on MTV and I
thought that was all aspiration
I look at those women I think
they're miserable I look at
these people that women that
are still finding their freedom
I say find the number one
feminist that you know and
ask yourself a question do you
think she's happy completely
chasing her career do you
think Chelsea Handler's happy
never right and the answer is
no and so I'm I'm lucky that I
got that wake-up call I'm
blessed that I got married I'm

blessed that I have you know
three children album with on
the way and the more that I
can talk about
how happy and fulfilled I am
for the first time in my life
right not when I was drinking
and pretending to be happy
but for the first time I actually
am happy and I got those
things by finally realizing that
the message that those things
are going to constrain me was
utterly false and was meant to
put me down a path of misery
do you think why do you
think men are not getting
married that's women do you

think men have something to
do with it same thing I think
well first and foremost I think
and I speak out on this
women are not desirable right
now everyone's Kim
Kardashian clone I asked you
earlier what don't men want
and you said promiscuity well
that seems about the only
thing that's
being offered right now but
my Instagram and I've got
butt cheeks and I'm going
people like I don't understand
why no one wants to This
Woman's been married four
times I'm like well I can I can

understand it because even if
men think they want it in the
short term when you see a girl
she's half naked she looks
good yeah sure you probably
do want to have sex with her I
bet you're wired that way
you're hardwired that way but
then what happens after you
after you have sex though and
you realize that so did up 20
other dudes in the same week
you don't want her you nailed
it you're absolutely nailed it
and this is where it's so we're
in such a difficult it's a race to
the bottom
between the two genders yeah

as the women act worse the
men act worse by extension
because if you're going to be
moral in an immoral world
you're going to end up
wrecked right so it's getting
harder and harder so we have
to kind of like fix one of the
genders first women women
aren't desirable right now as
in the Western Hemisphere as
a whole um and of course
finding a wife is hard finding
a wife is hard and it's because
women are literally being
conditioned to behave like [
___] completely and they're
also being conditioned to

leave the man as soon as things get difficult there's a lot of programming in this I don't think even many people pick up on but women are conditioned to act a certain way before marriage but also during marriage men and women are conditioned differently if you have a man who's been married for 10 or 15 years and let's say he doesn't sleep with his woman anymore and he goes on TV and says me my woman have been married 15 years we no longer have sex I'm not satisfied I should leave

everyone will say to him no
you can't leave you can't leave
or just because you want to
have sex with you are you out
your mind are you crazy stick
by your woman she has an
emotional problem Etc if you
had a woman who said I've
been married for 15 years I've
been with him I'm not
attracted anymore I don't have
sex with him anymore you
deserve

Freedom you can go get
someone else why are you
putting up with this his his
feelings aren't your
responsibility so it's actually

very interesting also the
psyop happens post marriage
women are also attacked post-
marriage to not try not stick
around not worry about their
husband's age speaking to
your point one thing I speak
to the young women that
follow me about is making an
effort after you get married
this idea I was reading this
ridiculous column ask Jane
where a guy was writing in or
in Earnest saying you know I
love my wife she's a
wonderful mother to our
children we've been married
she had one child two two

years later she gained 50 pounds and hasn't lost it and the Jane wrote back to him and yelled at him for saying he's like he's like I'm not attracted to her anymore I don't want to just yelled at him for even saying this I'm going no this is the why are you yelling at him for being honest the idea that marriage is a Finish Line is problematic that oh well I got the guy I pretended I like to work out and go to the gym and now that I've got him I'm going to gain 200 pounds and he's just stuck with me that is a

poisonous mentality you should make an effort for your husband part of that's part of marriage is caring about each other caring about each other's health health is wealth so it's even that is toxicity to say to a woman well to say to a man you just have to like her anyways if she's 300 pounds and doesn't care anymore and sits on the couch all day that that's not what marriage is really about completely agree and I think everything in life is rented I don't think anything is ever owned I think that your health

is rented and you have to pay
the rent every day and your
marriage is rented and you
have to work on a marriage
every day and your business
is rented and everything you
have is rented I think the idea
that even owning anything or
anything is a Finish Line is
wrong you don't just start a
company and go okay I'm rich
now no you gotta work on
that company every day it's
rented you don't just get in
shape and go I'm in shape
now it's done no absolutely
everything's the
same in a relationship is

exactly the same and I completely agree with you I think that the breakdown of the nuclear family and the breakdown of marriage in the west is actually one of the ills one of the big problems with that I I'm not married myself so I'm not being completely I don't want to come across as hypocritical but I do think that is actually a fast way to a degree to solve Society a lot of problems in society I do think though in the current setup of society I think the reason a lot of men are also rejecting marriage is one

because there's not many
wives to find but two I think a
lot of men find themselves
very unhappy in marriage
because the women have no
interest at all and
satisfied them like you said
there are no interest on in
their needs and they end up
scared of divorcing her
because they're going to be
bankrupt in a marriage where
they don't feel respected kids
don't listen to them and
they're not the king of their
own household so what would
be the attraction and getting
married unless you're gonna

be the king of your own household and that can be extrapolated and discussed in two different ways one about feminine uh submissiveness but also in about masculine accountability and Excellence because I think if you're truly an excellent man you can be the king of any household so it's very interesting it's kind of interesting how all arguments come back to almost the same base biological things and you teach women to be good women you teach men to be good men and everything kind of works out after that

and if you break those two things everything built on top of it completely degrades and breaks down because even all the other things we've discussed we discussed how masculinity would have prevented a lot of the covert crisis we can talk about how genuine masculinity or a good nuclear family and anti-propagandist uh dinner table can prevent a lot of this transgender Insanity there's a homemade so many things can be fixed with a man being a man and a woman being a woman it's like the ultimate

cure what I always say and it's
so natural to finding the rules
in the household so like
maybe hasn't had to sit down
and it just was I had a natural
proclivity to do certain things
I always give the greatest
example when a baby is born
the men don't know what to
do for the first you just need
your girls you know they they
just are what do I do and I
remember like every thinking
about every diaper size
transitioning what clothes he
needed what onesies all of the
stuff George not there we're
not there I think Georgie must

have been that's my son's
name Georgie must have been
two months old and I said
something to I don't
remember what I said to
George but I had realized that
George had already
opened his college account
truck like things that I when I
tell you my brain was no I
was just like where are you
where I'm sitting here
thinking about the day-to-day
he's thinking about his future
100 I don't even know when I
would have I think still to this
day George is not two and a
half I still would not have

opened an account for him it
just is not where my brain
was 100 and so I just I love
telling my story because it
just speaks to how different
I'm like did you try to feed
him he's like I don't know
why he's crying I'm like have
you tried giving him food and
then he's like oh I've already
sorted out this has been
counted at us when he turns
18 so I'm like where are you
men and women are different

it's

beautiful those differences are
beautiful the sexual sex
differences are a beautiful

thing our our instincts are
beautiful and we need to stop
shunning them in this Society
I love being a woman I love
that my husband's a man we
shouldn't be making someone
feel badly about being a
woman we shouldn't make
someone feel badly about
being a man well absolutely
and I if if I had to be
pessimistic about why they're
doing it pessimistic and also
very realistic they want to
cause absolute Chaos on
confusion because they're in
chaos and confusion you can
Implement anything of course

slavery it's slavery right
people will give up their
freedom for only one thing
and that's safety so they
have to inject chaos and they
have to inject confusion and
they want us confused at
every level at every base level
they want you confused they
want you confused about why
your kid doesn't listen to you
why your marriage doesn't
work why you're broke why
they want you confused from
the ground all the way up so
you're just confused so when
they come along with some
sort of solution no matter

what garbage it is you end up just adopting it because you're sick and you need a medicine so absolutely they attack masculinity and femininity because it works so perfectly together and if they can break that they can break all of society by extension and I think they've done a pretty good job of doing exactly that and it's amazing if you look at these ideas we discuss and how ridiculous they are and how I feel like it's a psyop to even convince me to waste my time convincing people that a man

is not a woman it's done on purpose because they have the world so confused now they can come at us with absolute garbage and it needs a discussion if we had the basis of masculinity and femininity in the household how much harder would the transgender argument be to implement think about it well she's a woman I'm a man no but now they know people thinking we're all the same it doesn't matter your gender is not real all this craziness because of the breakdown of the basics so this

is why perhaps they see you
as
such a threat and they see me
as
such a threat and they see us
as
such a threat because we've
just
stuck to the age-old adages
and the
age-old ways that people have
always been and I do think
that one
of the reasons why they
dislike me
so much is because yeah I I
certainly live a teenage boy's
dream but if you want to

inspire
the Next Generation how else
are
you going to do it right you
have to
have the fancy car and the big
yacht and all these things and
and
by inspiring these men to
stand up
and think for themselves and
resist
the slave mind it's doing
genuine
damage to their slave agenda
genuine damage to their slave
agenda and I think that that's
why I

especially ended up targeted I
truly
believe that's what's
happening I
think there is an element of it
that
it's you you've captivated
young
men and that is a very
important
demographic in order to
sustain an
enslaved population is you
need to
poison men and I think that
that is
true so in closing other than
the

fact that we've agreed that
you're
going to get married in the
next
five years sure I get four
wives no
not four wives just one
monogamous relationship
okay
what does Andrew Tate's life
look
like in the next five years
you've
you've built your audience
you did
it with your own Grant
determination there are people
following you I hope that if

there's
anything I leave you with it's
that
in those moments when you're
sitting across to Someone
Like
adam22 You Remember that
there's the 12 year old and the
13
year old boy that is going to
be
watching you and I think you
did a
good job by the way I think
you
said that you didn't like it and
that
was important enough but

what is
what does the next five years
look
like for you yeah I want to do
my
absolute best I've I had
someone
say to me the other day that
I'm the
richest man in the world and
not
because of my finances but
because I actually have
people
whose lives I save and help
and I
get a lot of people out there
who

genuinely feel a lot better
because
of me and I try my very best
to tell
the truth and live true to my
heart
and I I live with my brother
and
I've got a lovely family and I
feel
like I've got everything almost
ticked off and my plans for
the
future are primarily to
continue to
tell the truth I think that we're
now
winning I think there's been a

pendulum that swung and
people
are tired of insanity and
they're
tired of being lied to I like the
idea
of young boys who follow me
just
doing even one of the tenants
I
teach if you want to just work
hard
in the gym and become a
fantastic
Financial physical condition
or if
you want to get financially
secure

which is one of the tenants I
teach
can genuinely improve
people's
lives I like the idea of that and
I
want to have 10 Sons and I
need to
make sure that all 10 are
Andrew
take four five six I'm the third
seven eight nine all the way
up and
I have to make sure that the
next
generation are being produced
and
they have to be strong enough

to
deal with the Romanian jail
cell
and deal with a matrix attack
so it's
going to be a very difficult
upbringing and I'm going to
make
sure that I'm very dedicated
and
focused on creating the next
generation of super soldiers to
resist enslavements so my
plans for
the future are pretty simple
I'm
going to continue to tell the
truth

I'm going to live true to
myself true
to God I really appreciate the
audience he's given me and I
know
that I have a massive
responsibility
it makes me a better person
I'm
gonna be the best person I
know
how to be and I'm going to
have 10
Andrew Tate's that's my goal
that's
the plan well you heard it here
first
ladies and gentlemen if you

thought one entertain was bad
you've got 10 more coming at
you
in the near future Andrew
thank
you so much for taking all
this time
such a good conversation
thank
you [Music] thank you.
