INFINITY PODCASTS 1371

Your daughter one of them
later on she brings a guy
home he's like you okay okay
and confident not intimidated
by you his ass yeah yeah he's
respectful but he's confident
and he's kind of like you he
comes in with a Swagger cuz
that's what they're used to
right course of course they get
married five years later they
got two kids okay okay she
finds text messages she finds
out he's got a handful of girls
on the side yep you find out
through your guys who run
the clubs that they report
because people going to guys

like us we're going to be reported back everything's coming back to us you find out he's hooked up with three four five girls on a side M are you confronting him so I say this and i've answered this question before and people find my answer surprising but I'm going to be very honest with you my plan for my daughters and my number one hope for my daughters if I could plan their lives head to toe would be for them to at a relatively young age meet a man who is older than them who can take care of them

financially and get pregnant
and have a family if my 21-
year-old daughter wanted to
marry a 48 50-year old guy
I'd be very happy with that
like good he's probably
settled down a bit he has
enough money to take care of
you you're going to be good
in this scenario which you've
just described if the man is
financially providing for her
if he's offering her provision
and protection and she's safe I
would truthfully from the
bottom of my heart say to her
look there's no point losing
the man who's paying for you

who takes care of you who
will die for you who protects
you who does all of those
jobs as a man because he's
running around with a few
silly girls there's no point
leaving him you can confront
him we talk talk to him but
there's no point in destroying
your family home over this
that's what I would say people
may think I'm not telling the
truth but I'm telling you that's
what I would genuinely say
you know we talk about
marriage there's a really great
guy there's a really great guy
on Twitter Devin Ericson I

think his name is everyone
follow him and he replied to
my video I made on Elon
Musk um no that's not him
that's a little dork from
Nebraska that's a little nerd
from Nebraska that's one of
that's one of the kids was one
of the pastor Sons we don't
need them Ste Eric almost got
a shout out okay that guy is
not a dork all right all right
find his reply I would like to
read this verbatim please find
his reply to my Elon video
where I explain that having
children is the business of
Kings please find he did a

thread breakdown of of it this is about two weeks ago his reply to my Elon video if you can find it that's not it there's another one if you can find it I would I would love to read it verbatim cuz he explains something which is so pertinently important it's extremely important so we'll find it but he talks about what marriage effectively is while he's looking for it do you have a summary yeah so what he's saying is people will say Andrew has a bunch of baby mamas and that he's irresponsible but truthfully a

man's true obligations are protection and provision this is why the Bible said if you rape a woman you have to marry her people will see that as oh that's bad for the woman but what they were trying to do is say to men you're responsible for what you create you now need to protect her you must provide for her because of what you've done it was almost like marriage was not a punishment for the man but an obligation for the man and he was explaining that marriage throughout the

longest period in human time
was protection and provision
that's all it was a king could
have more wives because he
could protect and provide for
more wives he's saying
marriage was not bouquet
marriage was not
remembering anniversaries
marriage was not date nights
marriage was not holding
hands marriage was do I
protect you do I provide for
you so he effectively
defended me and said
Andrew does not have a
bunch of baby mamas he has
a bunch of wives cuz they're

all paid for they're all
protected they all have private
security they're all in
mansions they all Drive
Bentley's he's doing his job as
a man that's what a man is
supposed to do effectively so
I would say to my daughter
are you are your bills paid
now if he cuts the money off
or if he refuses to help her or
protect her if he leaves her in
the ghetto that's a different
conversation but if my
daughter came to me and said
dad say yes what's up my love
I'm living in my mansion and
I'm driving my Bentley and I

have my four nannies and my
private security guards and I
found out that my ultra rich
husband has a little girlfriend
who's 19 and I'm 36 now and
he has his little young hot
cute girl I'd say don't stress
him out and piss him off just
give him two days off a week
and get over it that's what I
would say that's the truth
that's what I would say

Welcome to the Real World it
may not be nice may not be
pretty the real world isn't but
at least you're paid for at least
you're taken care of is this it
R yes you want to read this

okay okay time to take a
break sit down context
Andrew Tate in this video
gives us what uh uh the what
here's the why uh trons uh
don't know what marriage is
or what it's for because they
they think traditional means
100 years ago the white
Christian European model of
marriage isn't traditional
marriage at all it's a redesign
a definition redefinition of
marriage it's marriage 2.0
we'll see how in a minute first
we need to admit that
marriage isn't instinctive there
are species that made for Life

Sand Hill cranes and whatnot
ma uh monogamy isn't a
struggle for them it's instri
just they just do it humans do
not inst I ly made for life they
just made the men mate when
they can impress women
women mate when they can
impress when they are
impressed by men and the
woman of the home and had
pack babysit each other's
children fast forward to the
beginning of a Neolithic era
now all of a sudden they're
actually something to own
Fields cattles buildings wealth
and Men owned the wealth

because they were the ones who did stuff you need to do to get it why the men because men had to impress women to mate all women have to do is mate to be impressed but since property was uh neotic humans survived and men had all the property mating arrangements had to adapt so that a mother could eat and a son could be raised and inherit the father's cattle if a man put a child in a woman she was his wife if he put a child in another woman she was also his wife if he put a child in 100 women he had

100 wives and those women
and children could rely on his
spear for defense and his
fields and cattle for support
that's marriage if you want to
understand this context look
at the part of the Bible that
says a man who rapes a this
what you were talking about
got it sounds insane if you go
through it modern Aon
Americans run comist but
ancient people didn't care
about romance and made
choice they were busy trying
to okay so by the way you
know Amore remember
Amore uh did you ever meet

Amore or no you definitely of
course yeah Amore would
come from here Amore is an
Armenian man who was my
chief compliance officer love
Amore love Amore when we
sold the company and he got
a million check yeah it was a
great by the way that name
matches exact who you think
he is ladies loved him
Armenian guy with an accent
who would speak French and
he would call all the girls
darling darling hey darling
and he would they would just
fall in love with this guy he
explained this was the

purpose of man it's purely mating he would always explain this that's what it's about back in the days the guys who had it their job was to mate now we are living in a different era of course to are so the the mindset has changed slightly on what they're thinking I added two other things I added in intentionality accessibility to kids so they can get a hold of you love and example partly kind of what you're talking about yeah ab and accessibility is also a very important one I'll be honest

like if a lot of this comes
down to money but most I
you don't I don't want to be
uh I don't want to be shallow
but so much in life comes
down to money because
money is your capability to
do many things right there's
no way you can effectively
raise that many children
without a huge source of
money of course it's very
expensive to do but if you do
have a huge source of money
I think a mo and I would have
a very long conversation
about the fact that cars get
boring and watches get boring

and you may as well have a whole bunch of children you may as well have a whole bunch of sons if you can afford to raise them and you have the time you can take the time out of work because you're rich enough to put effort and focus into them I'm not looking to just have children and abandon them I'm not trying to just create genetic progeny that are forgotten about the tap boys need effort the tap boys need energy the tap boys need money because they're the tap boys but I like to think I can

afford 20 so that's what I'm going to do and and women this is something else we have to discuss about women because this actually ties back into the human trafficking and the firm and all these things women are in a very interesting position now in Western Society where they are our equals while also being better than us because they're girl bosses while also being children because every time they make a decision that other people don't like or they end up not liking they didn't do it someone tricked

them so we're in this this
three phase garbage scenario
where women are better than
you plus children plus your
equal because when I say that
the women I'm with are happy
for me to have children with
other women you tricked
them they're full grown adults
I thought they were our equal
I thought they could come up
to their own conclusions I
thought they could sit there
and go you know what I life
from Andrew Tay I get to be
one of the most famous men
in the world he's extremely
secur conscious I get to be

very rich I know my kids are
going to be brown sexy tall
strong they're going to have
protect Philips diamonds Etc
it's fine that's their decision to
make right but people are
going to pretend that I would
I fooled them somehow and I
actually think this is an
interesting segue into how we
fix modern society one of the
most important distinctions
we need to make as a
civilization in the west
because all of our problems
from false rape charges which
I know a lot about to
feminism to all of this

garbage comes down to this impossible scenario where women are girl bosses and better than men at everything while also being our equal while also needing Dei to get anywhere while also being children who are permanently tricked into everything and this is a really interesting scenario to be in and I can give you a very simple example if there's a crazy [__] sorry woman Megan Megan Kev can now if there's a there's a crazy woman right and she's nuts and she takes Valium to sleep every night

and she's on Mental Health medication and she drinks all the time and she's crazy and everyone knows she's a hoe she's been with all the guys in town and I marry her and then she divorces me and takes half my money and I come to you guys and go guys I used to be rich had to cut the bagat and half I lost it she took all my money you will sit and say to me why did you marry her she's nuts everyone knows she's nuts you will blame me right whereas if a woman goes out takes drugs gets high gets drunk goes to the club

kisses four men kisses the
fifth man gets in the taxi with
him goes back to the hotel
initiates sex with him has sex
with him has no problem with
that sex asks him for a
handbag two years later he
says no Then cries rape no
one will say why did you do
all those things why were you
high why were you in his
hotel why did you have sex
with him instead we'll say that
man's a predator why we
always blame the man women
are not held accountable ever
it's always the man's fault all
of the time my argument to

that is if that's the Paradigm if the men are permanently the the only ones we blame for anything then how can you make women better than us at everything and give them any kind of autonomy you have to either say to women listen to your father then listen to your man because you don't know good for yourself or you have to say you know good for yourself so you're responsible for the scenarios you find yourself in all of the world's problems come from the fact that we're picking and choosing like schod ander's

cat picking and choosing at random depending on the scenario whether a woman is better than a man or a completely helpless child who is fooled all of the time time and when you apply this to society there's not a single problem you can't tie back to this exact thing and it's scary and it's dangerous there's not a single man on the planet now in the western world that can even truthfully get consent to have sex cuz consent can be retrospectively taken back so you could be a man and meet a woman and

have sex with her and have a
full happy relationship you
could be with her for two
years and you could be
together and she can live with
you and everything could be
fine and then the second she
doesn't like you she can say to
the police he abused me like
did he abuse you well he
didn't hit me but he
emotionally abused me how
what does that mean I felt sad
sometimes okay arrest him
what what this is an
impossible scenario for a man
to be in this is why also I
have my women I have my

wives I'm done all these
beautiful Instagram models
stop begging I'm sorry I'm
done I don't trust any of you
I'm done because if I talk to
any new girl it's going to be
great until I don't buy the
handbag it's going to be great
till I don't put her on that jet
cuz another girl's on that jet
now I got all the these
problems and I've had enough
so I'm done with women but
isn't it absolutely insane that
we're living in a world now
where no one wants to
address the fact that women
can weaponize the legal

system to destroy men
absolutely at random and they
do it to every single man this
is why they attacked me with
sexual crimes because even
the accusation is enough for
them to get what they want
which is to damage your
reputation and they can
simply do it by Lying by
Omission let me ask you a
question as a professional let's
be pertinent let's be smart
here if I'm the and I want to
destroy a man and I call 100
women who he's ever known
and 99 say he's a great guy
and one says he's a bad guy I

don't have to mention that 99
said he's a great guy I can Lie
by Omission I can ignore all
99 who defended him all 9
who say he's a great guy all 9
who says the one other girl is
a psycho liar we can ignore
that too we could take this
one girl and destroy the man
what's this one girl's
motivation well he's no longer
giving her money he's famous
he's Rich he's wellknown he's
living his life he has a new
girlfriend let me ask you this
and I don't even know the
answer what percentage of
women are on Mental Health

medication what percentage
of women are depressed you
think women don't lie I would
argue and I'm going to guess
17 to 24% of women are on
drugs because they can't
control their own brains but
we're going to listen to the
one we find out of a 100
saying a man's a bad guy
because he made her feel sad
once four and a half years ago
destroy this man do you not
understand that this Paradigm
17.7% I'm a genius I'm a
genius 56% receive mental
health treatment then half of
them are not I'm a genius so

this is my point no but let's understand why has the Matrix put this Paradigm together why do they allow and continue to tell us that women are better than us to destroy masculinity they're equal to us even though they need Dei and at the same time they're children who are susceptible to our Godlike powers to control their minds and that we're responsible for all of their decisions it's very simple because by putting together that Paradigm they can pick any man at random they don't like me Trump uh

heg Seth I think had this Matt
Gates had this they could pick
any man at random they don't
like they can call every girl
he's ever known and they can
get a criminal case that's how
they do it let me tell you
something else about women
this happened to me I had
women who didn't even
intend to rat on me and they
didn't but the police bring
them in women are not
prepared for 10-hour police
interviews if you bring a
woman in and go did Andrew
ever hurt you no did he ever
abuse you no he's abusive to

women well he wasn't
abusive to me are you sure
yeah I'm sure well did he ever
make you sad well we argued
sometimes yeah so that's
abuse well I don't think it is
well when you were sad what
did you do well he just went
out he just ignored me went
to work with another girl right
yeah I think so after 10 hours
they end up believing they're
a victim they brainwash them
and they know what they're
doing the police are trained to
do this so they can get that
one chick to wreck your life
with and this is what's

extremely important anyone
who understands the world
they do this on purpose so
that no man is safe because it
is the Warriors the men now
if you're the kind of man
who's going to stand up and
fight against the system and
fight against the Matrix and
resist enslavement have you
had sex probably you're
probably not an incel virgin
right you're probably the kind
of guy who knows some
chicks that's the attack Factor
always they go a Andrew tape
girls a Heth girls a at Gates
girls Trump girls girl they use

women they weaponize them
against men and this is
something that not a lot of
people understand and it's
scary and it's something we
need to fix as a society we
have to make a decision are
women sentient beings do
women come to their own
conclusions or not let's talk
about human trafficking talk
about human trafficking
nobody who's accusing me
and tweeting these stupid
things even knows my [___]
charges I thought human
trafficking I didn't know what
human trafficking was I

thought human trafficking
was getting someone beating
them up putting them in
Chains dragging them
somewhere keeping them
chained up and forcing them
to do something sex or wash
dishes whatever that's what I
thought human trafficking
was but in this insane
subjective world where
women are children who can
be fooled into anything
they're saying human
trafficking is no you used the
lover boy method you were
nice to her and because you
were nice to her and you Ed

Financial incentives to make her do something you're telling me I was nice to my girlfriend and bought her a handbag and that made her do something and that's human trafficking guys analyze this if you are nice to a woman and buy her a present and she does anything ever even if you didn't tell her to do it they could say he made her do that he made her have Tik Tok and even if she says no he didn't make me have Tik Tok or the girls in my case saying no he didn't HT us the girls in my case are defending me

doesn't matter what you say
he brainwashed you he made
you have Tik Tok cuz he
bought you handb guys please
understand no man is safe
from this [__] no man is safe
and that's why they keep this
so vague people talk about
consent all the time you need
to get consent get consent
how can you get something
they can take away years later
you can't get consent that's
why a huge proportion of the
men the young men in the
world today are just checking
out girls and checking out of
sex like [__] this it's a mess

I'm not even getting involved
in it I can't blame him it's a
mind field nobody safe from
this garbage absolutely
nobody.
