

WE TREATED PRESIDENT BIDEN FOR NOTHING

*We
develop a passion
for Teaching!*

INFINITY PODCASTS 1407

- I think we treated Joe Biden
like shit.

Like people just treated Joe
Biden like absolute trash.

And for what? Nothing.

Not the man just got old.

That's literally all he's guilty
of.

He got old
and people, they were like, oh
my God,

have you seen Joe Biden
these days?

He's so old. You're like,
yeah, that's what happens.

You, you get, you get older as
a person.

I can't believe how old he is.

I'm like, yo, you, when you
voted for him,
it's not like he was 20 people.

Make it seem like he
pulled like a magic trick
and then all of a sudden
flipped into an old man.
He came in as an old man,
and then now he was a
slightly older man,
and people are like, oh my
God, I can't believe him.
Why does he think he can't be
president?

Because you told him he
could.

People were so shitty
to Joe Biden then they were

just like pulling at strings.
I I, I mean, like, God, you
see, the other day he forgot.
He, he like forgot where he
was.

He like, he said the wrong
city.

He said, he said, what a
damn you like, you know
what?

I'm like, yo, people do that all
the time.

Especially when you older.
Yeah.

You, you, 'cause think of it
this way,
it's not even about like, old
as in your brain is is like,

you know, is degrading.
Think about how much
information you have
consumed by
that point in your, think about
how many names you've
heard,
how many places you've
been, how many stories.
Of course some things are
gonna get jumbled up, you
know?

It is like, yeah, the
person's old. He was just old.
That's all Joe Biden is.
He's old. He'd be like, yeah.
I would just, I don't
know. It's just weird.

It's not, it's not that
my grand, my grandmother,
my grandfather, they, they
would forget
or switch my name with my
siblings names all the time.
I'm sure you had that right.

They just like, my, my
grandmother sometimes she'd
be

like, ah, Andrew.

And I'd be like, no, Trevor.

She'd be like, ah, yeah.

When she did that, there was
no point where I was like,
she needs to step down.

She's not fit to be my
grandmother anymore.

We treat old people like
such shit in society.
It's like we, like, they, we
make it
like they're disposable.
And it was like, ah,
you are old. All right.
Get out of the way.
You're old now. It's over.
He just got, he just got old.
Yeah.
And yes, the things that he
did, they, they obviously,
they don't make you
comfortable, don't get me
wrong.
Like, they'll throw you
off. So for instance, one

of the big ones was he
was at the G 20, right?
And he was introducing
President Zelensky of
Ukraine.

And then he, he said,
and it gives, gives me a lot,
a lot of pleasure to introduce
to you right now, the
president, president of the,
one

of the most powerful
presidents,
my auditor introduced
Vladimir Putin.

Oh, no, no, no. I mean,
and people are like, no, Joe,
he's not fit

to run this country.
I was like, yeah, he made a
mistake.
Think about how many times
he
says Putin. How many times?
He says it's more like
he said, like a random,
it's not like he was like, ah,
Idi Amin.
I mean, no. He said, I get it,
Putin.
You know what I mean?
Yeah.
That can happen to you.
It's a brain fart. No.
And then people said the
dumbest

thing, someone said to me,
they, they were like, they
were like, well, you know,
Trevor, what if, what if it
gets,
what if it gets into a situation
where he does something
really bad?
Like he, he could make a
mistake like that
and he could bomb the wrong
country.
I was like, do you know
how countries work?
What, what do you mean he
could bomb the wrong
country?
Well, you think just Joe

Biden's there with the keys
to the jet and he's just
like, I gotta pop out
and do something real quick.
I I gotta fly to Eastern
Europe.

And he is like, take, take that
Ukraine.

No, I meant Russia,
you, how much bureaucracy
exists between Joe Biden
and the country being
bombed?

Like, if he said, we gotta,
we gotta bomb Ukraine,
they'd

be like, you mean Russia?
They'd be like, oh, yeah,

yeah. I'm, I mean, Russia,
of course, it's not like it just
happens.

It's not a thing. We
treated him like such trash,
he's like an old man, you
know, trying
to fight for his country.
That's all he was doing. And
here's the
thing, forget the politics.
It was just like the old thing
that was like, I was like,
why are we doing this man,
guys this old, it's not
as sharp as he used to be.
That's life. It's gonna
happen to all of us.

Hopefully, you know, if you
get there, it'll happen to you.
We're like, Joe Biden trash.

And look, I will, I will be
fair. And I will be honest.

I, I think what didn't
help was that his team
didn't acknowledge that
he was getting older.

I don't think that helps.

And that is a problem

I have with like, a lot
of American political spin.

They try and tell you that
what you're

seeing is not what you're
seeing.

You know? So like Joe Biden

would like, he would be like,
and then people would be
like, yo, he's getting older.
And then his team would be
like, Joe Biden is not getting
older at all.

In fact, he's younger than he's
ever been.

Like, that's not how numbers
work.

The man is just getting
older and older and older.

Just say, yes, he's old.
Just say he's old because
Yeah.

He was doing, yeah, making
some mistakes.

One of the ones that, you

know, one of the big ones
that threw people off was he
would, he would repeatedly
bring up world leaders
that he had recently had a
conversation with, which is
fine.

The only issue was that those
world leaders had long been
dead and that would throw
people off.

You know, he'd be up there
and he'd be like, I I,
I just had a conversation the
other day with Chancellor
Olaf,
and then people were like,
chancellor Olaf

died 30 years ago.
And they were like, oh no.
Oh no. Joe Biden. Oh no.
Everyone's like, he's, senile
he's got dementia. Oh, no.
Oh, no, no. I understand
why people thought that.
I also, I also should let
you know, full disclosure.
So we are completely honest
in this room. I, I am biased.
Okay. I'm biased because
I've met Joe Biden.
I met him at an event called
the White
House Correspondence
Dinner.
Okay. In this event, you are

there, the president is there,
'cause of the security
and everything, you have
to get there, well ahead of
time.

So you spend time, you
get to meet the president,
you have a long conversation
with him and the First Lady.

And then later on in the
evening,

you have another
conversation.

Then after you have another
conversation, and then
after the event, you have
another conversation.

So in the span of like five,

six hours, I got to speak
to Joe Biden frequently.
And I have nothing to gain
from telling you this.

The man's not running
for present or anything.
He's, he's done. Like, he's
fully compos mentis.
He was with it, you know,
slight speech impediment.

Yes.

But otherwise he was with it.
You know, he could recall
information.

He kept up with the
conversation. He was with
me.

He was lucid. It, it, it was

fine. Do you know what I
mean?

Like, he would talk to me,
he's

like, Hey, Trevor, you know,
another thing in the country
and I, the things I dream for
as Americans, and you do that
thing.

And it was fine. It's
not like he talked to me
and then like three hours later
came back
and he was like, Jackie
Robinson.

That didn't happen. You
know?

So I know, like, I'll be

honest, I have, I have a
different theory.

I think. I don't think
Joe Biden has dementia.
I don't think he's senile. I
just think Joe Biden is old,
but I think he's so old
that he can communicate
with the other side.
We don't consider that.
But he's basically in
that space between,
that should have been
their campaign, actually.
Yeah. Instead of saying he's
not old, they should have
doubled down.
They should been like, you

damn right. Joe Biden's old.
He's the oldest president
this country's ever had.
And you should be grateful,
who better
to protect the Constitution
than someone
who was there when they
were writing it.
But now he's out. So now he's
out.
And I'll be honest, I'm happy
for him.
I'm happy that Joe Biden
gets to go out like this.
I think, again, as an old
person,
you should have a dignified

end.

You know? I think we've
robbed old
people of that in society.
Capitalism and whatever.
It's like, no, it's nice to, like,
you go,
you've lived your life,
you've done your thing.
Relax now, you know, and
Joe

Biden feels more relaxed.
I dunno if you've seen him
recently.

He just had like a
different swag to him now.
He just, you know. Yeah.
It just feels like someone

like loosened up the
joints, you know?
Because like before when you
saw Joe Biden, you, you got,
he was a little precarious.
You know, when you see him
like walk,
he didn't like inspire
confidence.
Like he, he like stumbled
and he, you know, he
always looked like a late
stage Jenga tower.
Like, you know, which is
probably
why the Secret Service wasn't
so good at protecting Trump
or him.

Like, it's just like, in their
defense,
they've been protecting
geriatrics for the past decade.
Of course, they're not in
practice.

You know, like when they're
protecting young presidents,
they're like, all right,
everybody
look out for the shooter.

Look out. 'cause the danger's
up.

That's where you gotta look.
You gotta look up there.
You gotta look. When you're
protecting old people,
you're just like, all

right, look at the ground.
Where's the stairs? Where's
the stairs? Where's the stairs?
Look out, Mr. President,
there's a dog that's shat here.
Hold on, hold on, come on,
come on.

He's got a difference. So Joe
Biden's got like a, like, oh,
he's got a vibe now, man.
The other day he was at
a, it was like a little,
not a rally, it was just a
meeting
with a community
somewhere, somewhere.
Biden supporters, some
weren't.

He's just walking around
greeting,
Hey, how you doing over
there?

Good, good, good to see how
you doing? How you doing?

And there's a guy sitting
wearing a Trump hat, right?
Wearing a Trump hat. And
Joe

Biden comes like, Hey, how
you doing?

How you doing, man? And
then,

and he's like, I don't like you.

And Joe Biden's like, oh
yeah, I don't like you either.

And I was like, oh, who's

this guy? Who's this guy?
He's like, oh yeah, I don't,
I don't like you either.
I don't like you. He's like, you
are old.

He is like, oh, you want a
dog? Look at you. You are
old.

And he just started like,
trading
with this guy back wasn't
presidential.

He wasn't like, oh,
well I see why you face
like, nah, man, you old as
shit.

Look at your face. Like, God.
He's like, you are old,

you, you're just old.
I'm old and I'm president.
Bitch.

He just had like a
different like vibe to him.
You're like, what? What? And
the
guy was wearing a Trump
hat.

And then he said something
about you
or something along those,
he's like, he's like,
yeah, that hat.

And Joe Biden's like,
come on, wear my hat.
And he's like, no. He's like,
would you wear this one?

And Joe Biden's like,
yeah, I'll wear your hat.
Gimme the hat. And he takes
the hat
and he puts the Trump hat on.
He's like, yeah. And that guy,
you should have seen that
guy's face.

He was like a, because he
thought maybe like Biden
would
like burn or something, I don't
know.

Just turned to, he was like,
wa.
He's like, I like you a lot more
now.

And then Joe Biden just

walked away.
He just had like his swag.
He's like,
all right man, I see you, man.
I'm happy for him. That's how
everyone deserves to leave.
You know? It's nice.
And now, now it means he's
out of it. But we are in it.
You know? Now the world.
The
world. Everyone in the world.
'cause America's elections are
the world's
elections, you know?
Now, see what happens now
it's
Kamala Harris instead. Woo.

Yeah, that's go. Is it a woo.
It's a woo for you. Okay.
Okay. Wait, wait, wait, wait.
But what does, what
does, what does it mean?
What kind of, what is it?
Woo. Like I'm excited or
Woo.

It's gonna happen. It's
happening. It's happening.
Damn.

Look at you. Alright. Alright.
Where do you live? Phoenix.
Phoenix. Oh damn. Okay.

That's
Arizona's important. Oh no.
Arizona's important because
if you said like New York,

I'd be like, but if you say
you're
feeling it and it's in Phoenix.

Okay. Okay. Well, 'cause
Kamala

Harris is not gonna be easy.
I hope everyone understands
that.

You know, America has not
shown

itself to have a propensity
to voting for new things.

It really has not. And this
is very new. Very, very new.

You know, because Kamala
Harris is a woman. Yes.

And she's black and Indian.

Yeah. Now you realize

Obama was level one.
America was so proud of
itself.
Thought it had clocked the
game.
That was the easiest level in
the game.
- It was like Mario Brothers
level one.
It was like, let's do this thing.
Play.
Play
Hawaii,
Hussein, Kenya.
Yes, we can.
I was like, yeah, we did it.
We did it. We did it. Yeah.
Yeah. Woo. And then Kamala

Harris
stepped up and then was like,
blah blah.

Blow, blow, blow, blow. Blah
blah.

- Oh man. Oh man. You guys
have been so much fun, man.

Thanks for coming out
tonight.

Had a great time with all of
you.

Goodnight y'all.

- One more time, man.

Showing
some love, man. Trevor
Noah.
